## **City's Annual Budget Process**

The budget process for the City involves teamwork and cooperation among many groups and individuals within the City, including citizens, the City Council, and City staff. The City's annual Operating and Capital budgets are prepared on a calendar year basis.

#### Six Distinct Phases Make Up the City's Budget Cycle

#### 1 PLANNING

The City Manager receives guidance from the City Council on how to direct the City departments in developing their budgets for the coming year – what the constraints are and what priorities to focus on.

#### 2 DEVELOPMENT & PREPARATION

This stage occurs when Department Heads and key staff members develop and submit their budget requests to the Budget Review Team (City Manager, Budget Director, and Finance Director). The Budget Review Team balances projected revenues and projected expenses and develops the City Manager's recommended budget.

#### 3 REVIEW & ADOPTION

The Review and Adoption stage occurs when the City Council reviews the City Manager's recommended budget, seeks input from the public, makes budget adjustments, then adopts the annual budget for the next fiscal year. The City Manager presents a recommended balanced budget to the City Council in September for their review and deliberation, City Council presents a balanced budget at a public hearing held at the second council meeting in November, with budget adoption taking place by City Council at the first council meeting in December.

#### 4 IMPLEMENTATION

The Implementation stage occurs when services financed by the adopted budget are carried out. The budget year is on a calendar year, January 1 through December 31, 2014.

#### 5 <u>MONITORING</u>

The Monitoring stage occurs when expenditures are monitored by Department Heads, Department Supervisors, Budget Director, Finance Director, City Manager and City Council throughout the year to ensure that funds are used in an approved manner. City Manager, Department Heads, and City Council receive monthly detailed budget reports and are responsible for monitoring expenditures paid from each line item. These reports indicate approved budgets for each line item and department/program. They indicate what has been spent for the month, quarter, year-to-date, the amount(s) encumbered, and what is still unspent.

#### 6 <u>EVALUATION</u>

The Evaluation stage occurs when audits are conducted and annual financial reports are produced. An independent auditor conducts the City's annual audit process during the months of March, April and May.

Each phase involves a coordinated effort between the City Council, the City Manager, Fiscal Management staff and City Department Heads.

#### FY2014 Budget Description of Change

In the FY2014 Budget, the Fire Protection Fund revenues total \$816,758, a decrease of 14% or (\$133,130) under the FY2013 Amended Budget. The decrease is mainly attributed to grant funding (i.e. SAFER grant, etc.) concluding in FY2013. It is unlikely that the Fire Department will receive similar funding in 2014. The Fire Department's expenditures have been reduced to reflect the reduction in revenues in 2014.

#### FY2014 Staffing Level Description of Change

The 2014 Stormwater Program staffing level remains essentially flat when compared to the 2013 budget staffing level, although reductions and increases were made in specific areas related to the redistribution of personnel cost allocations under the City's new reorganization plan between the general fund and stormwater fund.

#### FY2014 Budget Description of Change

In the FY2014 Budget, the Stormwater Fund budget totals \$944,000, an increase of 8% or \$66,000 over the FY2013 Amended Budget. The increase is attributed to the Georgia Department of Natural Resources Cycle 16 Coastal Incentive Grant funding the City will receive in 2014 for the implementation of a Citywide Stormwater Drainage Master Plan. The increase in expenditures is attributed to the engineering fees and other costs associated with the implementation of the Citywide Stormwater Drainage Master Plan.

### **Sanitation Program**

FY2014 Budget Summary

(Funded by the Sanitation Fund)

**Purpose:** The Sanitation Program primarily focuses the collection and disposal of solid waste, recyclable items, and yard debris from the residents in Garden City to support public health and safety. The City provides these waste stream collection services through a contractual agreement with Waste Management.

**Core Services:** The Sanitation Program provides for the curbside collection of household garbage, recyclables and yard debris discarded by the City's residents. Carts are provided to the City's residential customers for the collection of household garbage and recycling items. Yard debris is bundled or bagged for collection. These waste stream collection services are subscribed services with the City through a contractual agreement with Waste Management.

#### FY2014 Budget Description of Change

In the FY2014 Budget, the Sanitation Fund budget totals \$430,012, a decrease of 1% or (\$3,078) under the FY2013 Amended Budget. The decrease is mainly attributed to a reduction in dry trash disposal costs since adding single-stream recycling and yard debris collection to the City's contractual agreement with Waste Management in 2009. The expenditures include a 2.2% increase by Waste Management which went into effect September 1, 2013.

#### FY2014 Budget Description of Change

In the FY2014 Budget, the Water and Sewer Fund revenues total \$3,515,866, an increase of 4% or \$135,666 over the FY2013 Amended Budget. The increase in revenues is attributed City Council adopting an increase in the water and sewer rates in order to adequately fund the department's operations as well as the increased depreciation and debt service expenses in 2014. The expenditures for the three divisions of the Water/Sewer Resources Program: Wastewater Treatment, Water Treatment and Water/Sewer Distribution, Billing & Repair have been reduced and increased in specific areas of operations, depreciation, debt services and personnel cost allocations to more accurately reflect projected expenditures in fiscal year 2014.
