Budget Objective

The following information is provided to assist the reader in understanding the purpose of this approved budget document, in addition to finding information. The City of Garden City Approved FY 2011 Annual Budget includes financial and service delivery information combined with policy statements, in a means designed to easily communicate the information to the reader. The FY 2011 Approved Budget, therefore, is intended to serve four purposes:

The Budget as a Policy Document

As a policy document, the Budget indicates what services the City will provide during the next year. Additionally, the level of services and reasons for their provision are stated. The City Manager's Budget Message summarizes long and short-term concerns for the City, financial situations and how the Budget will address specific issues in FY 2011. Specific policies are addressed in the Financial Policies section. Within the Departmental Summaries, the four functions list specific short and long-term priorities and goals.

The Budget as an Operations Guide

As an operations guide, the Budget indicates how departments and funds are organized to provide services to the citizens of Garden City and visitors to the community. Approved changes for FY 2011 are summarized in the Transmittal Letter and detailed in the Funds, Debt Summary & Financial Trends, Personnel Summary and Departmental Summaries sections. Additionally, within the Departmental Summaries section, each department lists a mission statement, a department description, goals, objectives, approved budgetary additions and/or deletions, and line-item history, year-end projections and approved funding for FY 2011.

The Budget as a Financial Plan

As a financial plan, the Budget summarizes and details the cost to the citizens for current and approved service levels and includes funding information. At the front of the document is the adopting ordinance summarizing revenue and expenditures at the fund level for the FY 2011 Approved Budget. Within the Transmittal Letter is a narrative description of the major revenue sources for each fund, expected receipts and summaries of approved expenditures. Detailed financial information is illustrated in the Funds, Debt Service & Financial Trends section in addition to data found within the Departmental Summaries Section. Such information is typically listed in five columns: 2008 Actual, 2009 Actual, 2010 Budget, 2010 projected year-end, and 2011 Approved Budget.

The Budget as a Communications Device

The Budget is designed to be user friendly with summary information in text, charts, tables and graphs. A glossary of financial budget terms is included for the reader's reference. Additionally, a Table of Contents provides a listing in order of the sections within this document. Should the reader have any questions about the Approved FY 2011 Budget, he or she may contact the City Manager, at (912) 966-7777.

City Manager's Budget Message Fiscal Year 2011

December 6, 2010

Mayor Holder and Members of the City Council:

I am pleased to submit for your consideration the following proposed budget for the fiscal year beginning January 1, 2011. My recommendations are based on direction provided during the September 2010 Mayor and Council Goal Setting Session, as well as a thorough review of our current financial status. In the face of current economic trends, this FY 2011 Budget is significantly impacted by fixed costs such as payroll, debt service and insurance, as well as numerous external factors such as fuel prices, interest rates, reduced consumer spending and a decline in new construction. Expenditures that are not fixed or set by outside forces have been reviewed and trimmed multiple times to arrive at a balanced budget for each fund. The result is an austere budget that meets the expectations of a beautiful city that is still growing and changing 71 years after it was founded.

Balancing the general fund budget without the benefit of property tax revenues requires a commitment on the part of all departments to effectively provide the same levels of service without substantially increasing expenses, to identify appropriate expenditure savings and user fee increases, and to defer needed replacements, enhancements and additions, until increased resources are available in the future. As such, the budget process began at the department level where each Department Head produced his or her requests for funding and submitted them to the City Manager. The City Manager subsequently conducted an initial assessment with the Finance Director to thoroughly evaluate the requested budgets. Additionally, revenue projections were developed and the necessary adjustments made to accurately reflect anticipated revenues. The Finance Director then met with each Department Head and went over their submissions in line-by-line detail with the final results being sent to the City Manager for review and final instructions.

The budget was developed using the standards set forth by the Government Finance Officers Association (GFOA) and will be submitted to GFOA in anticipation of gaining the prestigious award of "Distinguished Budget Presentation Award" for the City's 2011 Budget Document.

The progress we make as a community is only possible through great teamwork and collaboration, both from within our organization and throughout the greater community. The City will continue to make progress and govern responsibly by maintaining focus on the established goals which will lead our City into 2011. These include:

1. Employing, training and maintaining a quality workforce of highly effective and efficient individuals.
2. Providing and maintaining a safe, secure and clean community.
3. Implementing cost effective improvements through studies, reviews and suggestions.

As we strive to ensure these goals are met, the City has realized many accomplishments. A brief narrative of the various departments, as well as any accomplishments realized is listed below:

Legislative Department:

The City's Legislative Department is comprised of the Mayor and seven City Council Members. Its budget includes expenditure items such as retirement contributions, travel and a legislative contingency of various funds to be allocated as needs arise. In the FY 2011 budget, Legislative Department expenditures total \$617,963, an increase of \$510,854 over the FY 2010 amended budget of \$107,109. The primary reason for the increase is attributed to additional monies being allocated to the Legislative Contingency line item to promote savings during this economic downturn.

Executive Department:

The Executive Department is made up of the City Manager and his staff which includes an Assistant City Manager, the Clerk of Council, an Administrative Assistant and a Receptionist. The FY 2011 budget includes expenditures for items such as Election Fees, Contracts and Agreements, Food Banquets and Flowers, and Dues and Fees. In the FY 2011 budget, Executive Department expenditures total \$863,872, an increase of \$95,128 over the FY 2010 amended budget of \$768,744. The increase is attributed to the addition of an Assistant City Manager, an increase in Contracts and Agreements, and the costs associated with an upcoming election. The debt service payment for the Dotson House is being reflected in the Executive Department's budget. The Tourism Board will pay the City rent in the amount equal to the debt service payment.

Information Technology Department:

The Information Technology Department is made up of the Information Technology Director, a City Hall Maintenance Worker, and a Custodian. All of the Communication and Computer Equipment line items from the other departments are now the responsibility of this department. The FY 2011 budget for this department is \$356,424, an increase of \$15,416 over the FY 2010 amended budget of \$341,008. The addition of a full-time custodian and an increase in City Hall Maintenance line item are responsible for the increase within this department.

Police Department:

The City of Garden City is one of the safest cities of its size, anywhere in the world. The Police Department is nationally accredited and considered industry leaders throughout the State. The past year has seen the Department complete a total of 5,690 training hours (which averages to approximately 132 hours per officer). Additional accomplishments of the Police Department include:

- The Police Department earned re-accreditation through the Commission on Accreditation for Law Enforcement Agencies (CALEA) and became one of only 22 municipal Law Enforcement Agencies in Georgia to be Nationally-Accredited.

- The Department is one of only 7% of Police Departments in the State that is both State certified & CALEA accredited.
- Public Relations activities such as the National Night Out and the Adopt a Needy Family program continue to be excellent community outreach tools that promote civic appreciation for the Police Department and the City.
- Equipment was upgraded to ensure that all officers within the Department are now equipped with mobile data terminals in their patrol cars to do work that was once only done in the office, but can now be done remotely from their patrol cars.
- In cooperation with the State Department of Motor Vehicle Safety, a Commercial Vehicle Unit is in operation in order to monitor and regulate safety aspects of the commercial vehicle traffic going in and out of the Port.

The projected expenditures for the Police Department in FY 2011 are \$3,611,371, an increase of \$41,164 over the previous year's amended budget of \$3,570,207. Increases in electricity, vehicle maintenance, due to a change in the way the City accounts for surplus sales receipts, and costs associated with housing prisoners are primarily responsible for the increase within the department.

Fire Department:

When it comes to fire protection and prevention, our Fire Department continues to provide hundreds of hours of fire safety tips as well as provide for the fire protection of life and property at a very high level of efficiency and effectiveness. Since the creation of the City's first paid full-time Fire Chief, we continue to reap the benefits of maintaining both a strong paid and volunteer firefighting force that has proven to be successful and which makes the City a better, safer place for our residents. Additional accomplishments of the Fire Department include:

- The City maintains a HAZMAT Team which was established in FY 2009. The City's FY 2011 Budget also includes a full time Emergency Management Coordinator/Trainer position. These functions are fully operational and all cost associated with the new functions are reflected in the FY 2011 budget.
- Under the Emergency Management/Hurricane Response Plan the following has been accomplished,
 - Approval has been obtained for the plan from CEMA, GEMA, and FEMA.
 - Contracts are in place with Debris Monitoring, Debris Removal and Insurance Reimbursement firms.
 - All Department Heads have been trained to achieve NIMS 100, 200, 700, 800 certification

- Achieved and maintained first-time certifications in confined space and maritime fire-fighting, high angle rescue, tank farm suppression, fire safety education and National Incident Management.
- The City's Fire Station-1 is now a teaching station.
- The Fire Department received a new Public Protection Classification from the Insurance Service Organization (ISO), which awarded the community a Class 3 and will result in significant reduction in homeowner's insurance rates for the next 10 years.

The projected expenditures for the Fire Department in FY 2011 are \$672,533, an increase of \$81,457 over the previous year's amended budget of \$591,076. Beginning in FY 2011, the City will utilize a Fire Protection Enterprise Fund to account for all revenues and expenses associated with the Fire Department.

The Fire Department is also responsible for the Emergency Management division which was established to develop, coordinate, and lead the City's emergency management program. The expenditures for this division total \$58,198 for FY 2011 an increase of \$46,698 over the FY 2010 amended budget of \$11,500. The increase is attributed to the addition of a full-time Emergency Management Coordinator/Trainer.

Public Works Department:

In a continued effort to keep Garden City clean and attractive in a safe and environmentally responsible yet cost effective manner, the Public Works Department was completely restructured in 2008. Permanent staffing level was reduced in FY 2008 from 22 to 10 full-time positions. To date the staffing level has not changed. In order to ensure no reduction in service levels temporary labor is used on a seasonal basis. The City utilized cost-saving measures to ensure that quality service delivery was maintained. Additional accomplishments of the Public Works Department include:

- Completed an increased number of capital improvements in the areas of street resurfacing, railroad crossing repairs and drainage improvements.
- Developed, implemented and maintained a collaborative flood mitigation procedure with neighboring municipalities.
- The City continues to maintain a Storm Water Utility Fund which was implemented in February 2009. Garden City became the 39th community to implement such a system in Georgia.
- Garden City maintains a curbside recycling program which was launched in FY 2009. The program offers single-stream recycling, which enables residents to put all their eligible recyclable goods in one convenient bin.

The projected expenditures for the Public Works Department in FY2011 are \$918,011, a decrease of \$78,184 under the previous year's amended budget of \$996,195. The decrease is attributed to a decrease in Contracts and Agreements.

Finance Department:

One of the most important duties entrusted to City staff is to maintain the financial health of the City. In order to more effectively meet this responsibility, the Finance Department was reorganized and is in excellent shape today. New pro-active fiscal management measures have been implemented to ensure compliance with the Auditor's recommendations and GASB standards. Improved communications within the Finance Department through monthly financial briefings have been extremely valuable. Additional accomplishments of the Finance Department include:

- The FY 2009 Audit was submitted to Government Finance Officers Association (GFOA) and received the Certificate in Achievement for Excellence in Financial Reporting.
- The FY 2010 Budget was submitted to GFOA and received the Distinguished Budget Presentation Award.
- Personnel are cross-trained to ensure work flow continues without interruption during employee absences.
- Newly adopted City fee structures have been implemented successfully to include water and sewer rates, regulatory fees, retirement benefits, storm water fees, fire protection fees, etc.
- The Purchasing Policy manual was updated with emphasis on promoting a higher level of compliance at the department level. New procedures have been added to facilitate a better audit trail on individual transactions.
- The Travel Policy was implemented which uses the industry standard per diem system and is updated on a consistent basis.
- Monthly Financial Statements continue to be prepared and submitted to Council to keep them better informed. In FY 2011 the reports will be prepared in a more expanded format, inclusive of explanations of disbursements on a line item basis.
- Staff began preparing Quarterly Financial Reports of a more detailed nature and met with Mayor and Council to ensure they have a thorough understanding of the financial health of the city on a consistent basis to enable them to make informed decisions.

The Finance Department has diligently worked to ensure the City remains in a positive financial position and the City's finances are properly managed. The projected expenditures for the Finance Department in FY 2011 are \$305,770, a decrease of \$42,610 under the previous year's amended budget of \$348,380.

Human Resource Department:

In 2007 the City's first Human Resource Department was established. A Human Resource Director was hired and a solid foundation was laid for the Department's future.

Since the creation of this department, the City's Personnel Policies and Procedures Manual have been re-written. In addition to updating the City's policies in areas such as FMLA and disciplinary actions, the Personnel Manual established control procedures for work injury care. As a result, the City has better control of risk before it happens and employees are more aware of their responsibility to follow safe work procedures. A new recruitment and hiring process was also implemented in order to reflect new legal requirements as well as meet the needs of the City. Furthermore, a solid working relationship with the local Industrial Medical Group has been established which translates into physicians having a better understanding of our employee physical requirements, therefore facilitating the process of getting employees more quickly back to full duty. Additional accomplishments of the Human Resource Department include:

- An Employee of the Quarter Program is in place in order to increase morale.
- A Random Drug Screen Program has been implemented to quickly assess any potential problems and prevent the proliferation of associated destructive behavior.
- A Hepatitis B Vaccination Program is in place for at-risk employees.
- A City-wide Employee Training Program is in place to educate and train employees in areas such as Workers Compensation Law, Defensive Driving and Sexual Harassment in the Workplace.
- The composition of a Continuity of Operations Plan (COOP) for the City was organized in order to ensure that a continuance of City services will be maintained from a safe location during local natural disaster events.

Due to the establishment of this new Human Resource Department, employees now have an "Employee Customer Service Center" that is staffed and functioning effectively as seen in the reduction of employee grievances from a weekly occurrence in 2006, to only two in 2007, none in 2008, none to date in 2009 and none in 2010. The projected expenditures for the Human Resource Department in FY 2011 are \$100,357, a decrease of \$11,866 under the previous year's amended budget of \$112,223.

Parks & Recreation Department:

The Parks & Recreation Department continues to offer dozens of wonderful programs for people of all ages as well as maintaining the public parks. But in response to the aging condition of many of the City's recreation facilities, this past year has seen a concerted effort by the Parks & Recreation staff to perform rehabilitative repairs and upgrades to some of the most critically aged facilities. Additional accomplishments of the Parks & Recreation Department include:

- A number of measures have been taken to increase the safety and security of departmental assets which include installing a fence around the gym/stadium/pool complex, installing additional lighting around the gym and installing metal roll-up doors on all the concession stands.
- Made major repairs and upgrades to Bazemore Park and Westside Stadium.

- Redesigned and renovated the computer lab at the Cooper Center to better provide technology services and training to the public.
- Beautification of the median of Highway 21 by planting and maintaining over three miles of landscaping along the most heavily traveled road in the City.

Everyone knows how important the senior citizens are to our society. They are our teachers of history and rays of joy in our life. The City does a lot to keep them safe, secure and happy. Under the direction of the Senior Center Director, the Senior Center is one of the finest in the State of Georgia. Activities offered include educational classes and seminars, financial planning, senior cultural tours and field trips, exercise classes, and health screenings.

The projected expenditures for the Parks & Recreation Department in FY 2011 are \$634,220, a decrease of \$40,250 under the previous year's amended budget of \$674,470.

The projected expenditures for the Senior Center Department in FY 2011 are \$145,181, an increase of \$5,586, over the previous year's amended budget of \$139,595. The two part-time workers' hours were increased in order to prepare meals in-house that were previously contracted out.

Planning & Economic Development Department:

The Department of Planning and Economic Development became fully operational in all aspects in late 2007. Being a diverse department, its staff members are involved in everything from reviewing and approving site plans to the enforcement of City codes, from analyzing plans for short and long-term development to providing staff support to the Planning Commission and Board of Appeals. Additional accomplishments of the Planning & Economic Development Department include:

- The City's regulatory fee schedule is updated annually.
- A Geographic Information System (GIS) is maintained annually.
- A Mixed-Use Zoning Ordinance was written, approved and implemented.
- A Landscape & Tree Protection Ordinance was written, approved and implemented.
- A full update of the City's Comprehensive Plan was conducted and adopted to include the development of a future land-use plan.
- A combined Planning Commission & Board of Appeals was established
- Reconstituted the Garden City Convention & Visitors Bureau Authority.
- Facilitated the purchase of the Dotson-Warren House which will eventually house the offices of the Convention & Visitors Bureau staff.
- Reconstituted the City's Downtown Development Authority.

- Implemented a new “In-fill Program” to help revitalize certain neighborhoods.
- The City’s recent award of a Neighborhood Stabilization Program Grant will provide over \$900,000 in funding to address and make improvements to foreclosed on and blight properties.

The projected expenditures for the Planning & Economic Development Department in FY 2011 are \$384,363, an increase of \$40,236 over the previous year’s amended budget of \$344,127. The Planning and Economic Development Department will be able to complete the comprehensive overhaul of the City’s zoning ordinances.

Water/Wastewater Department:

The Water/Wastewater Department is dedicated to providing the highest quality drinking water and wastewater service to residents and businesses while protecting our waterways and conserving natural resources. Under the leadership of the current Director, the City’s Wastewater Treatment Plant received the Gold Award for 2007 and this department continues to function in an excellent manner. Additional accomplishments of the Water/Wastewater Department include:

- A new water/sewer conservation-oriented rate structure was implemented in FY 2009, which not only met the new EPD requirements but included a 10% meter replacement provision. The new rate structure has resulted in the installation of over 1,000 new meters allowing the City to more accurately account for its water usage.
- Radio-read water meters are being used to ensure more accuracy in meter reading and it saves time and money on utility billing.
- The fire protection capacity of water lines was upgraded in the Rossignol Hill area by completing a \$1 million water line and fire hydrant installation project.
- Completed over \$300,000 of sewer line rehabilitation work in addition to over \$500,000 in sewer lift station upgrades.
- A Water Conservation Plan was developed, adopted and implemented in FY 2009 and continues to be maintained.
- A Watershed Assessment as well as a Water Modeling Study was conducted to better understand and optimize the City’s water system.
- Garden City was selected for Prestigious 2009 Water First Class Honor by the Georgia Department of Community Affairs which recognizes communities with a commitment to water conservation.
- Garden City was one of five communities in Georgia to be accepted for the prestigious 2009 Water First Class and continues to maintain a strong commitment to water conservation.

The City will continue to take steps to maintain a “Water First” community status with DCA which reflects the continued efforts of the Water/Wastewater Department’s commitment to maintain the highest quality water and sewer system. The projected

expenditures for the Water/Wastewater Department in FY 2011 are \$3,038,700, a decrease of \$460,047 under the previous year's budget of \$3,498,747.

Garden City Town Center:

After over five years of negotiations and due in large part to the growth of what is now the fourth largest and fastest growing container port in the country, the City sold its municipal complex to the Georgia Ports Authority in August of 2007. The sale meant that the City would need to relocate and construct a New City Hall. But given the lack of a recognizable downtown and after a great deal of public involvement, evaluation and planning, the City decided to expand the scope of this municipal construction to include a mixed-use Town Center. With the help of a public/private partnership between the City and a private development group, this municipal complex is now home to our New City Hall, Town Green and over 850,000 square feet of commercial, retail and residential opportunities. And while this once in a lifetime opportunity was a very expensive project, the intent of Mayor and Council has always been to complete this project without implementing property taxes or negatively impacting existing services. During the process, I maintained confidence that this was indeed possible based on a number of factors.

First of all, at the beginning of FY2009 the General Fund was in very good shape overall thanks in large part to conservative fiscal policies implemented under your leadership, conservative revenue projections provided by the Finance Department, and good fiscal management by the City Department Heads. Secondly, an unrestricted savings balance which included the \$3.4 million in revenue secured from the sale of the old City Hall allowed for a majority of the project costs to be financed directly from savings without having to draw from operating revenue. Lastly, while the ultimate completion of the Town Center project required a minimal amount of debt service to be carried by the City in order to fund land acquisition and infrastructure improvements, our private partners will recoup these costs to us over the next few years.

Focus on the Future:

Even during these tough economic times, we must look at today's challenges as new opportunities that have opened before us. In many cases, it means applying all the lessons we have learned in the past to produce results we had not imagined. It means taking a forward thinking approach to how we do business and how we strategically apply our resources to meet high citizen expectations.

Because an economic downturn was experienced in FY 2010, tough choices had to be made to cope with the changes. Departments were made to hold the line in spending which meant reducing the level of service without reducing the scope of service. City employees did not receive any merit or cost of living increases during FY 2010 and the increase cost in health insurance coverage was passed on to the employees. Positional needs were deferred until a later time. No positions, other than those of a mandatory nature were filled.

In building the FY 2011 Budget, our approach is guided by our core principles. We determined to avoid irresponsible cuts that generate short-term savings at the expense of long term prosperity. We will not build long-term plans on short-term fixes. A plan is in place to maintain core services using a more efficient organizational structure and

workforce. We will continue to depend on our employees to do more with less, while paying the utmost respect to the taxpayer dollars. We will continue to preserve reserves and free cash to maintain favorable ratings and prepare for “unforeseen problems” in FY 2011 and beyond.

Our success in planning for fiscal year 2011 and beyond validates that our seasoned leadership team is very strong, and works exceptionally well, especially in uncertain economic periods.

To maintain success, the City is focusing on its endeavors to shape the future of Garden City.

- **Mixed-use Town Center:** In 2009, Garden City started construction on an exciting new mixed-use Town Center. This project recently won a Georgia Planning Association Award and promises to breathe new life into a previously undeveloped area of Garden City. The 40-acre Town Center will accommodate more than 800,000 square feet of commercial, residential and retail development; will serve as the new “heart and soul” of downtown Garden City; and provide a new gateway to historic Savannah.
- **New Regional Police Academy at Town Center:** The new Georgia Public Safety Training Center Regional Police Academy, which serves as a training center for coastal Georgia law enforcement officers, opened this summer. The Regional Police Academy provides required certification training for new law enforcement officers in a 19-county region. The 10,500 square-foot building offers 10-week basic training sessions for new police officers.
- **New Town Green:** The New City Hall is located on an 8 acre tract which includes a 5 acre town green. The 5 acre parcel is located in front of City Hall and is being developed as public space featuring a tree lined landscape, pavilion, water features and open space for the citizens to enjoy.
- **New Visitors Center:** The Dotson House, the oldest home in Garden City, has been relocated to the Town Center site and will serve as the headquarters for the Garden City Visitors Bureau. This late eighteenth-century building is currently undergoing renovations and when re-opened to the public will feature area visitor information, meeting rooms and history exhibits.
- **Dean Forest Road Beautification Project:** In an effort to create a more attractive environment that appeals to motorists, pedestrians and bicyclists, Dean Forest Road will feature a scenic landscaped boulevard, tree-lined streets, sidewalks and bike paths from Southbridge Blvd. to Sunshine Road. The construction will begin this in FY 2011 and is projected to be completed by FY 2012.
- **New User Friendly Web Site:** Garden City recently launched a new website, which showcases the quality of life in Garden City and features handy information about city services, municipal departments, upcoming events and more. The new website serves as an enhanced communication tool for Garden City citizens.

- **New Public Library:** In an effort to continually enhance Garden City in all areas, we have entered into a joint venture with Chatham County in having a library built. The new library will provide a convenience to the citizens, as well as a valuable resource for all the residents of Garden City and Chatham County.
- **Growth:** In an effort to grow the City in a decennial census year, we continue our endeavors to annex unincorporated areas of the County into Garden City.

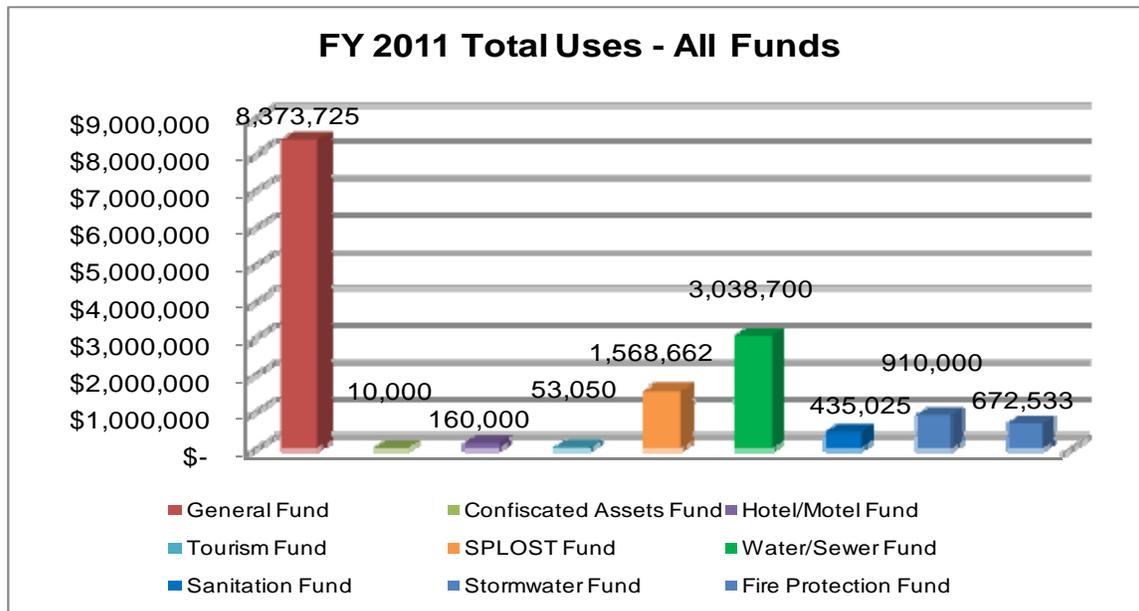

FY 2011 Annual Budget Overview/Highlights

The FY 2011 Annual Budget specifically expands the City's capability to provide quality services and provide additional capital improvements which should enhance the livability of the citizens within the City. The remainder of this transmittal letter details in general terms, the budgetary decisions/ actions pertaining to the operating and capital budgets, expenditures and revenues for each fund and changes in the final balance.

As mandated by the City Charter, the FY 2011 Annual Budget represents a balanced budget. Total appropriations from each fund do not exceed estimated fund balances, reserves and revenues for each of the City's respective funds.

Total Uses

The FY 2011 annual budget for all funds totals \$15,221,695. Below is a table illustrating the FY 2011 total uses per fund. These figures include expenditures and inter-fund transfers.

FY 2011 Operating Budget

All services provided by the City in FY 2011 are approved at the funding levels which permit the continuation of basic services at established service levels.

Summary of Salary Increase

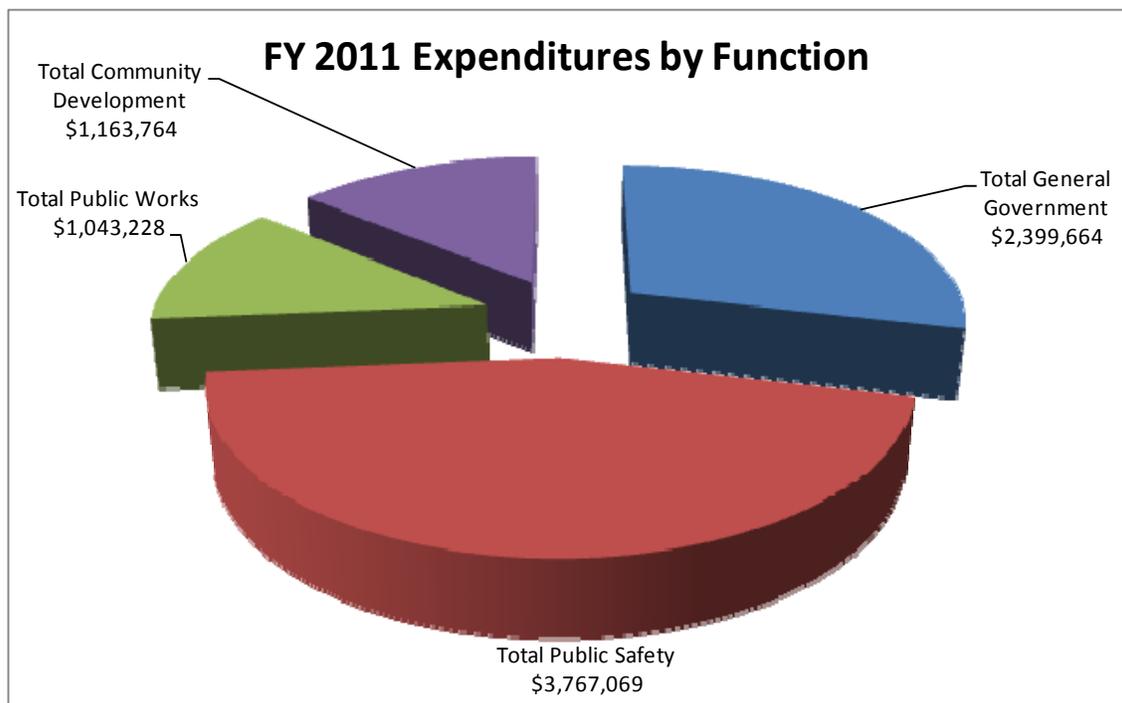

One of the City's underlying goals is to retain an effective workforce by providing a competitive salary and benefit package for City employees. The FY 2011 Budget includes a salary increase of 3% for qualified employees.

Summary of Increased Employee Health Insurance Contributions

Included in the FY 2011 Budget are appropriations for increased City contributions for employee health insurance benefits. As in the past, the City will continue to fully fund the retirement system as a benefit to employees. In order for an employee to be eligible for the retirement plan, he/she must be an active, regular, full-time employee who is employed at least 20 hours per week on a regular basis. Employees are vested in the program after five (5) years of service.

General Fund

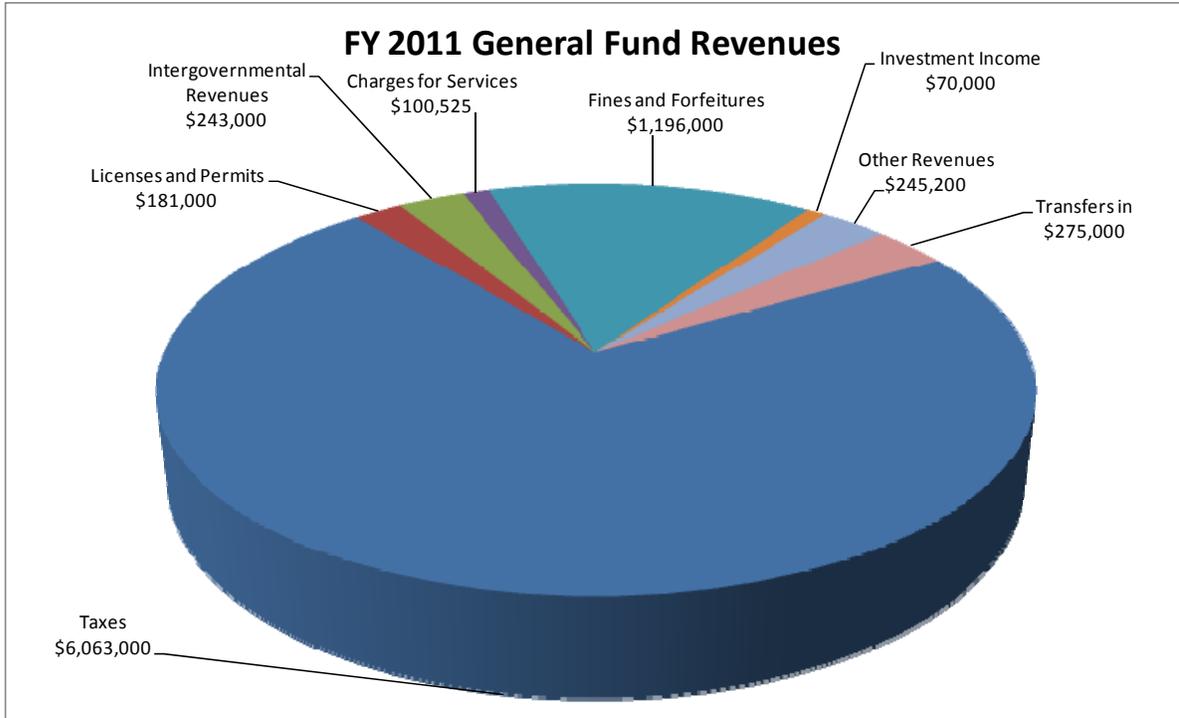

Total General Fund uses (expenditures and transfers to other funds) for FY 2011 are \$8,373,725, which represents a decrease of 25.5% or \$2,862,354 under the FY 2010 amended budget. This decrease is due to a one time permanent transfer of \$3,000,000 made to the SPLOST Fund from the General Fund. Revenue projections for the forthcoming fiscal year indicate that \$8,373,725 will be available through the City's diversified types of revenues.

Summary of Revenues

The City's largest source of revenue is derived from Local Option Sales Tax (LOST). Other significant sources are the revenues derived from excise taxes, fines and forfeitures, and licenses and permits. Brief descriptions of the General Fund revenue streams are provided below.

2011 General Fund Revenue Summary

Major General Fund Revenue Sources

Sales Tax (Local Option)

The largest General Fund revenue source is the Local Option Sales Tax (LOST), a retail sales and use tax of 1%. LOST revenues are projected to generate \$3,615,000 in FY 2011. Trend analysis, estimated growth in the number of retail commercial businesses and observation of local retail business conditions are the primary means of forecasting this revenue source.

Excise Tax

The Excise tax is the second largest group of General Fund revenues. Excise taxes, consisting of individual items such as beer and wine taxes, franchise taxes, occupational taxes, insurance premium taxes and other similar taxes are expected to realize

\$2,448,000 in FY 2011, an increase of \$140,909 or 6.11% over the FY 2010 Amended Budget of \$2,307,091. Forecasted similarly to the sales tax, excise tax revenues are directly related to the health of the local economy.

Fines and Forfeitures

Fines and forfeitures is the third largest group of General Fund revenues. Fines and Forfeitures consist of monies collected through the court system. This revenue source is expected to yield a total of \$1,196,000 for FY 2011. This amount represents an increase of \$40,000 or 3.46% over the FY 2010 Amended Budget of \$1,156,000.

Other Financing Sources

Other financing sources combine to make the General Fund's fourth largest revenue source. In FY 2010, the City Council adopted enterprise franchise fees for water, sewer, and stormwater utilities. Said revenues are generated from a 5% charge on water, sewer, and stormwater revenues. In FY 2011, City receipts from this source are estimated at \$195,000. Also included in this category is \$80,000 from the transfer of hotel/motel taxes from the Hotel/Motel Fund. Transfers from the Hotel/Motel Fund are expected to decrease by 27% in FY 2011 compared to the FY 2010 amended budget of \$110,000. Trend analysis is used to forecast these revenues.

Intergovernmental Revenue

Intergovernmental Revenue makes up the General Fund's fifth largest revenue source. The City was awarded a grant from the Federal government to allow the City to fully staff our Police Department. This grant will help the City continue to provide a high level of public safety for the citizens of Garden City. In addition to this grant, the City is reimbursed by Chatham County for two police officers on the Counter Narcotics Team (CNT). The City is expected to receive \$243,000 in FY 2011.

Minor General Fund Revenue Sources

License and Permits

Licenses and permits are a minor source of revenue in the General Fund. Trend analysis and anticipated construction starts are the primary forecasting tools used for this revenue stream. Said fees are expected to yield \$181,000 in FY 2011. This amount represents no change from the FY 2010 Amended Budget total. Based on recent trends and anticipated construction projects the City expects building permit revenue to remain flat in FY 2011 and for the next several years.

Investment Income

Investment Income is one of the minor revenue sources in the General Fund. Investment Income is revenue generated based on interest earned on monies invested during the year. This revenue source is expected to yield a total of \$70,000 for FY 2011. This amount represents no change from the FY 2010 Amended Budget. Due to the health of the local economy and the use of available funds to assist in the financing of the Town Center, the amount of monies to be invested will be limited.

Other Local Revenue

Other local revenue is comprised of various rental fees, recreation fees and other miscellaneous fees. In FY 2011, these revenue sources are estimated to collect \$345,725, which represents a \$38,800 increase or 12.64% over FY 2010 budgeted revenue of \$306,925.

Summary of Expenditures & Other Financing Uses

General Government Function

The General Government function is comprised of the following departments and divisions:

- Legislative (City Council)
- Executive (City Manager)
- Information Technology/Information Systems
- Finance Department
- Human Resource Department

General Government Expenditures for FY 2011 total \$2,399,664, which represents a 49% decrease or \$2,277,800 under the FY 2010 amended budget total of \$4,677,464.

FY 2011 Approved General Government Expenditures

General Government	2009 Actual	2010 Budget	2010 Amended	2011 Adopted
Legislative	\$ 26,278	\$ 74,235	\$ 107,109	\$ 617,963
Executive	1,074,187	769,999	768,744	863,872
IT/IS	80	330,708	341,008	356,424
Finance	301,797	367,580	348,380	305,770
Human Resources	116,712	116,723	112,223	100,357
Miscellaneous				
Transfer to CIP Fund	-	-	3,000,000	-
Transfer to Other Funds	-	50,000	-	155,278
Total General Government	\$ 1,519,055	\$ 1,709,245	\$ 4,677,464	\$ 2,399,664

Public Safety Function

The Public Safety function is comprised of the following departments:

- Police Department
 - Municipal Court
- Fire Department
 - Emergency Management

The Public Safety function makes up the largest expenditure group totaling \$3,767,069 or 45% of the General Fund budget. This reflects the City's continued commitment to a high level of excellence in police and fire protection. In comparison to the previous year's amended budget of \$4,264,283, the FY 2011 budget decreased by \$497,214 or

11.7% due to the creation of the Fire Protection Enterprise Fund. Beginning in FY 2011, the City will utilize a Fire Protection Enterprise Fund to account for all revenues and expenses associated with the Fire Department.

FY 2011 Approved Public Safety Expenditures

Public Safety	2009 Actual	2010 Budget	2010 Amended	2011 Proposed
Municipal Court	71,619	75,950	91,500	97,500
Police	3,632,168	3,798,703	3,570,207	3,611,371
Fire	483,879	409,476	591,076	-
Emergency Management	35,858	21,000	11,500	58,198
Total Public Safety	\$ 4,223,524	\$ 4,305,129	\$ 4,264,283	\$ 3,767,069

Public Works Function

The Public Safety function is comprised of two (2) departments:

- Streets & Drainage
- Shop Service Center

Public Works is the second largest expenditure group of \$1,043,228, or 12.2%, of the total General Fund budget. These services include Public Works administration, engineering, street maintenance and repairs and a service garage that maintains all City vehicles and equipment. In comparison to the previous year's amended budget of \$1,136,140, the FY 2011 budget decreased by \$92,912 or 8.2%.

FY 2010 Approved Public Works Expenditures

Public Works	2009 Actual	2010 Budget	2010 Amended	2011 Proposed
Streets and Drainage	1,177,035	1,508,444	996,195	918,011
Vehicle Service Center	130,334	142,445	139,945	125,217
Total Public Works	\$ 1,307,370	\$ 1,650,889	\$ 1,136,140	\$ 1,043,228

Community Development Function

The Community Development function is comprised of three (3) departments:

- Planning & Economic Development Department
- Parks & Recreation
- Senior Center

Community Development expenditures for FY 2011 total \$1,163,764, which represents a .5% increase or \$5,572 from the FY 2010 amended budget of \$1,158,192. The Community Development Function is 13.4% of the General Fund Budget

FY 2011 Approved Community Development Expenditures

Community Development	2009 Actual	2010 Budget	2010 Amended	2011 Proposed
Senior Center	146,905	146,565	139,595	145,181
Parks & Recreation	745,024	668,770	674,470	634,220
Planning & Zoning	386,339	420,327	344,127	384,363
Total Community Development	\$ 1,278,269	\$ 1,235,662	\$ 1,158,192	\$ 1,163,764

Fund Balance

The FY 2011 General Fund Balance is expected to be approximately \$6,853,477 with revenues offsetting expenditures. The Fund Balance is used throughout the year to fund various non-budgeted projects as approved by Mayor and Council.

The City's reserve policy stipulates that a minimum of 50% of the Budget be maintained in the General Funds undesignated Fund Balance. The purpose of this reserve is to protect the City from economic downturns and unforeseen expenditures.

Special Purpose Local Option Sales Tax Funds

The Special Purpose Local Option Sales Tax (SPLOST) is a citizen approved penny sales tax for specifically designated capital projects. The tax is voter approved for five (5) year increments.

Special Revenue Challenge: Temporary Loss of SPLOST Funds

With regards to the Intergovernmental Agreement for the use and distribution of proceeds from the 2008 Special Purpose Local Option Sales Tax (SPLOST) for Capital Outlay Projects, Chatham County was allowed to retain the first \$109 million of SPLOST proceeds received under the current agreement in order to construct the Detention Facility Expansion including any debt service on general obligation bonds. What this meant for the City is that the approximately \$1.2 million in revenue projected to be disbursed from the County to the City did not begin until November of 2010.

As previously stated, all Departments are being streamlined to ensure the City can operate efficiently and effectively until this revenue stream is back in place.

Special Revenue Funds

Confiscated Asset Fund

Confiscated Funds – Confiscated Assets Fund represents a share of the net proceeds in forfeiture cases mostly at the federal level. The City of Garden City has assigned agents that work with the Drug Enforcement Administration (DEA) which in turn results in the shared revenues. The share percentage is based on the agencies overall participation in and contribution to the investigation. These funds must be used for law enforcement purposes and must increase and not supplement the appropriate operating budget. Any interest earned on these funds must also be used for law enforcement purposes.

Hotel-Motel Tax Fund

The Hotel Motel Tax Fund is a special revenue fund created for the purpose of promoting tourism in the City of Garden City. Revenues for the fund are raised from a 6% hotel/motel tax placed on hotels/motels conducting business within city limits. The tax is expected to raise \$160,000 in FY 2011. One sixth (1/6) of the collections are designated for the purpose of constructing, developing, supporting, and operating the Savannah Maritime Trade Center. One third (1/3) of the collections are strictly designated for promotional purposes as detailed in O.C.G.A.; section 48-13-51 (a) (3.7). Revenues can be spent on the following broad categories: advertising, printing, binding and brochures; construction and renovation; and maintenance and operating costs. The remaining 50% does not have restrictions and can be used to fund general fund expenditures.

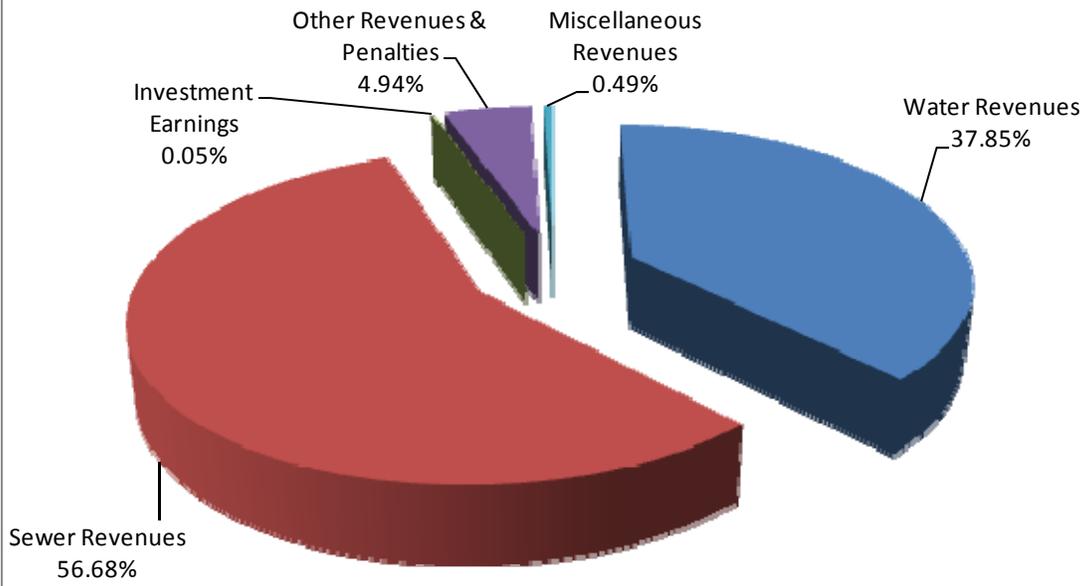

Tourism Board Fund

The Tourism Board Fund is a special revenue fund created in FY 2007 for the purpose of promoting tourism in the City of Garden City. The Tourism board receives one third (1/3) of the revenues earned from hotel/motel tax placed on hotels/motels conducting business within city limits. The Tourism Board Fund should receive \$52,800 from this revenue source in FY 2011.

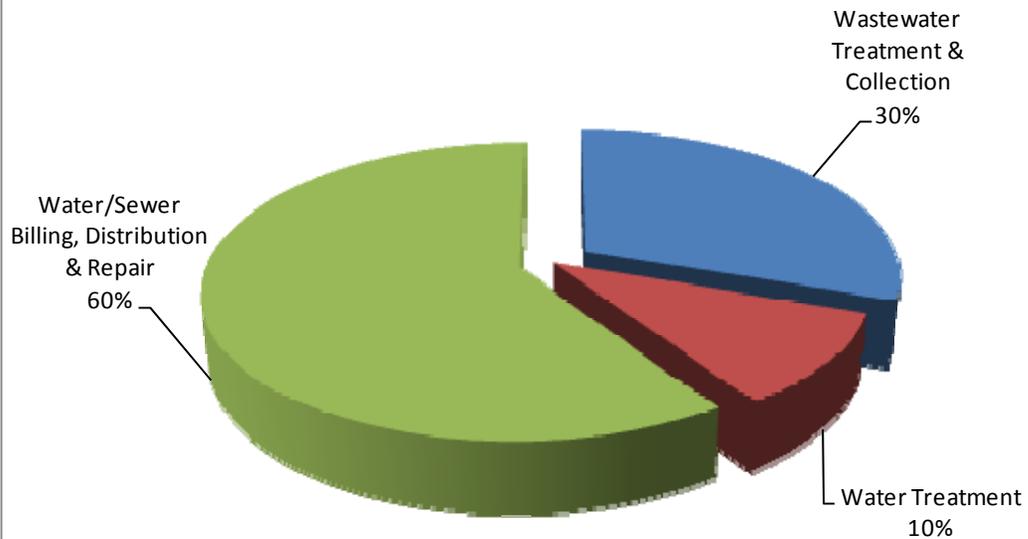

Enterprise Funds

Enterprise Funds account for specific services that are funded directly through user fees. The City's Enterprise funds are Water and Wastewater Fund (which has three distinct divisions), the Sanitation Fund, the Stormwater Fund, and the Fire Protection Fund. Typically these funds are intended to be fully self supporting and are not subsidized by the General Fund. The FY 2011 Budget for all Enterprise Funds is \$5,056,258. The Water and Wastewater Fund projected revenues and expenses totaled \$3,038,700. The percentages of revenues and expenses for the Water and Wastewater Fund are reflected in the following charts.

FY 2011 Water and Wastewater Revenues

FY 2011 Percentages of Total Operating Expenses

Conclusion

To protect the City's financial condition while achieving the goals outlined in this budget, a conservative and cautious approach was taken in projecting revenues and budgeting expenditures. The FY 2011 budget plan presented to you will fund the personnel and basic operating costs to maintain existing service levels. There is still much uncertainty as to what the future holds for local government revenue streams. Because we do not know what will happen to the sales tax collections, fuel cost, etc. we will need to proceed with caution as we enter the upcoming fiscal year and continue to follow cost control measures that have been implemented this year and others to include:

- Continue a hard hiring and salary freeze for all positions in all departments with the exception of department head and key supervisory personnel. Department directors will be asked to be creative and strategic in the utilization of personnel if resources shrink as vacancies occur.
- Freeze all out-of-state travel and in-state travel that requires an overnight stay or lodging that is not related to obtaining a certification or to obtain information required to successfully perform one's job.
- Monitor revenue trends on a monthly basis and be prepared to implement additional expenditure reduction measures, if necessary, to possibly include service reduction alternatives.

This FY 2011 Annual Budget was submitted to the Mayor and Council with the confidence that this document will assist citizens in evaluating approved budgetary and service levels. It also is intended to assist Mayor and Council in setting policy and establishing an overview of operations and City staff in accomplishing stated goals and objectives within financial constraints.

I would like to thank the Mayor and Council for providing direction in order to assist in the development of this FY 2011 Budget document as we continue to address the challenges and opportunities presented in this "new normal" environment for local governments.

In order to compile the data for this document, several staff members have worked diligently to see that the figures and graphs are complete and accurate. To all who have worked to produce this document, I wish to express my very sincere gratitude.

Respectfully submitted,

Brian Johnson
City Manager

City at a Glance

Introduction

The City of Garden City is located in Southeast Georgia, sharing a Northwestern border with the City of Savannah, in the heart of Chatham County (Fig.1). It is conveniently located near the intersection of Interstate 16 and Interstate 95. Garden City is the gateway to Savannah and Coastal Georgia, and the home of the Georgia Ports Authority.

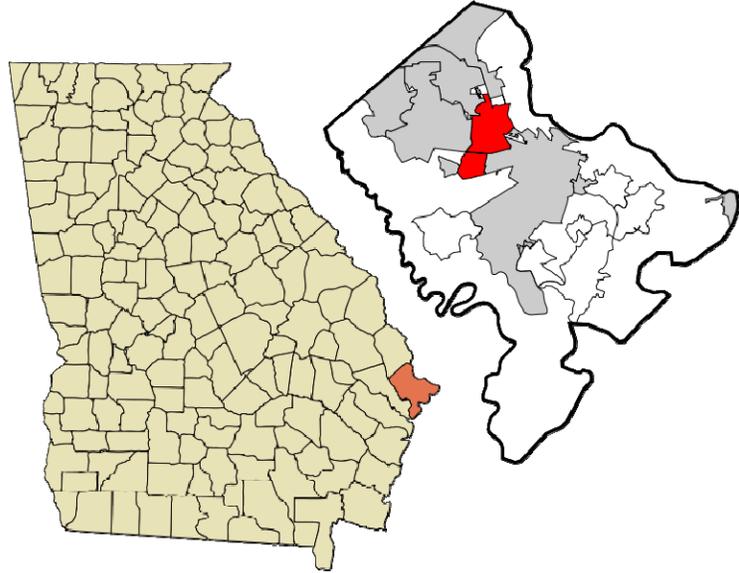

Fig. 1 – Location of the City of Garden City

On February 8, 1939, the residents of Industrial City Gardens, Georgia, were granted a charter of municipal incorporation by the Superior Court of Chatham County. Thus began the story of the town that became what is known today as Garden City. Previous to incorporation, from the time after the Civil War, the area was home to three major plantations: the Brampton, Givens, and Telfair. Early residents of the area were simple farmers and mill workers, many of whom eventually found work in the rapidly growing cotton and shipping industries.

Industrial City Gardens, Georgia, began life as the original suburb of the City of Savannah. It was developed by Mr. L.H. Smith, a well know Savannah banker and realtor. Lots were long and thin, providing space for both a home and viable farmland for each resident, all with convenient access to work in Savannah via trolley or automobile (Fig. 2). Two years after the initial charter for Industrial City Gardens was granted, a new charter was enacted by the Georgia legislature officially changing the name of the city to Garden City, Georgia. From that time forward, Garden City has continued to grow and prosper (Fig. 3).

Fig. 2 – Original map of Industrial City Gardens, Georgia

Fig. 3 – Current Boundaries of the City of Garden City

Current Position of the City of Garden City

Population and Demographics

Current data from the city's official Comprehensive Plan corrects some previously inaccurate data from the 2000 Census, and more accurately portrays the population at that time at 10,176 (Fig. 4). Projections done in conjunction with that data correction imply that the current population of Garden City would be close to its 2010 projection, at 12,024 (Fig. 5). The community is eagerly awaiting its 2010 Census results.

	Initial Count	Less Institutional Population	Less Group Home Population	Corrected Count
Population	11,289	1,109	4	10,176

Fig. 4 – 2000 Census Population of Garden City

Interestingly, the city plans to embark on an aggressive and multi-faceted expansion of its population base through several different avenues (Fig. 6). The city plans for a near doubling of its population by the year 2030. Given that these avenues for population expansion are based on already established policies and plans, the future growth of Garden City is solidly assured. However, historical population growth up to this time has been in line with Chatham County and other local jurisdictional norms (Figs. 7, 8).

Fig. 8 – Historic Growth Compared with Other Local Jurisdictions

The City of Garden City is proud of the cultural diversity and demographic makeup of its neighborhoods. It is a place where all are welcome to visit, and all are welcome to stay. It is a family first community, with strong values and neighborly instincts. Many different ethnic and age groups make up the population of Garden City, and that is part of the reason the community has been as successful as it is today, the strength of its culture and diversity. The population of Garden City is widely dispersed among age and ethnic groups, and future projections show the strength of the community continuing into the future (Figs. 9, 10).

Fig. 10 – Population Breakdown by Ethnicity

Households and Income

The original grid layout of Industrial City Gardens set the stage for a vibrant and well rounded community, which is home to many charming homes to this day. There are several solid existing neighborhoods in Garden City including Sharon Park, Historic Garden City, and Rossignol Hill. Additionally, Garden City has a significant amount of land where new neighborhoods will develop and shape the community’s character in the future.

One example of this is the new Town Center. In 2009, the City relocated its main municipal complex to a previously undeveloped site. The hope is that this new complex will spur additional residential and commercial development in a new area of the City (Fig. 11).

Fig. 11 – Garden City Town Center

Residing in Garden City is a wide range of family types and sizes, with a diverse economic background. The average household size (Fig. 12) is currently, and is projected to remain, higher than county averages; furthermore, growth in the sheer number of households has far outpaced the local average (Fig. 13). It is anticipated that growth in this area will continue productively well into the future (Fig. 14).

One area where the City is looking forward to making significant progress is in the median and per capita income of its residents. Improved economic conditions in Garden City in the future will, without a doubt, help to improve the economic conditions in each household. While there has been a marked increase in the median household income in Garden City between censuses, the local amount still trails Chatham County, and the percentage increase lags as well (Fig. 15). Per capita income shows a similar story. Growth has been solid, if unspectacular, and projections provide for continued growth (Fig. 16). However, there is confidence and hope in the future of our local economy that these numbers can be significantly improved upon.

Economy and Industry

Without a doubt, Garden City has a robust and growing local economy. With total economic activity approaching three-quarters of a billion dollars annually, times are good for growth and development in Garden City. Key local industries include wholesaling, warehousing and transportation, and professional and technical services.

Local Government

Since its incorporation and until recently, Garden City operated under a Mayor-Council form of government where the Mayor was the designated chief executive of the City and presiding officer of a 7-member City Council that was elected at-large for staggered four year terms. While day-to-day operations were delegated to a City Administrator, the Mayor had the ultimate authority to hire and fire, prepare and administer the budget and veto acts of the elected body. The City Council maintained responsibility for adopting the budget,

passage of resolutions and ordinances, auditing the performance of the government and adoption of general policy positions.

Recent legislation has changed the structure within Garden City to a Council-Manager form of government. This system of government combines the strong political leadership of elected officials with the strong managerial experience of an appointed City Manager, enabling the Mayor and City Council to share legislative functions. The Mayor continues to be recognized as the political head of the City but now becomes a voting member of the City Council. As the governing body of the City, the Council provides legislative direction whereas a City Manager is appointed by the Council to carry out the policies it establishes and is responsible for the administrative operation of the City based on the Council's recommendations. Thus, the Mayor and Council as a collegial body are responsible for setting policy, approving the budget and adopting resolutions and ordinances. The City Manager serves at the pleasure of the Council as their chief advisor and is responsible for preparing the budget, directing day-to-day operations and hiring and firing personnel.

In addition to the change in the form of government, the recent legislation also included the use of a mixed election system and a change in the composition of the City Council. Effective after the upcoming election cycle, the total number of elected officials will be reduced by one so that the City Council will ultimately consist of seven members, one being the Mayor. Five members will be elected from single-member districts with the Mayor and Mayor Pro-Tem being elected at-large. This mixed election system, combining at-large and single-member elections, will blend the city-wide perspective of the at-large council members with the local concerns and accountability of district council members and ensure that all geographic and minority populations continue to be properly represented.

The City currently employs 113 full time people and is organized into ten departments: Executive, IT/IS, Finance, Human Resources, Police, Fire, Public Works, Parks and Recreation, Planning and Economic Development, and, Water/Sewer. Also important to the City is its numerous volunteer boards and organizations, including the Planning Commission, Convention and Visitors Bureau, Beautification Committee, and numerous other individual volunteers. The service of our volunteers is invaluable and critical to the success of Garden City.

2011 Garden City Manager:
Brian Johnson

*Mayor Holder replaced Andy Quinney after his resignation in 2009.

Financial Policies

The purpose of this section is to present the policies that the City follows in managing its financial and budgetary affairs. These policies represent long-standing principles, traditions, and practices that have guided the City in maintaining financial stability.

Fiscal Policies

The following fiscal policies are employed by the City of Garden City:

- The City shall strive to maintain a broad and diversified revenue base that will equitably distribute the burden of supporting City services and will protect the City from short-term fluctuations in any one revenue source.
- The City will actively support economic and industrial development, recruitment and retention efforts to expand the revenue base.
- The City will maintain timely collection systems and implement necessary enforcement strategies to collect revenues.
- The City will project revenues on a conservative basis so that actual revenues will consistently meet or exceed budgeted revenues.
- Basic and essential services provided by the City will receive priority funding.
- The City will provide access to medical, dental and life insurance for its employees. The cost for these benefits will be shared between the City and its employees.
- The City will provide access to appropriate retirement plans for its employees. The City will make contributions for eligible employees at the percentage defined.

Fund Accounting

In governmental accounting all financial transactions are organized within “funds”. The City abides by Generally Accepted Accounting Principles (GAAP) governing the use of funds. First, a fund contains a group of accounts segregated for certain purposes. Second, the financial transactions related to these purposes will be recorded in the accounts of the fund. And third, these accounts must be self-balancing and must include information about all the financial resources (assets), liabilities, fund balance/retained earnings, revenues and expenditures/expenses.

Governmental Fund Types

The City currently makes use of three Governmental Fund types: General Fund, Special Revenue Funds, and Capital Improvements Fund. The City also makes use of one of the Proprietary fund types, which is the Enterprise Fund. The City has three different Enterprise funds: the Water & Sewer Fund, the Sanitation Fund & the Storm Water Utility Fund. Following is a brief description of each fund type.

General Fund: The General Fund is used as the chief operating fund and to account for all resources which are not accounted for in another fund. Most functions of the City are financed within this fund, such as maintenance and operations (M&O), and salaries and benefits. By definition, there can only be one general fund.

Special Revenue Funds: Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or for major capital projects) that are legally restricted to expenditures for specified purposes.

Capital Improvement Funds: Capital Improvement Funds are used to account for financial resources to be used for the acquisition or construction of major capital projects.

Proprietary Fund Types

Proprietary funds are used to account for the City’s ongoing activities which are similar to those often found in the private sector. The measurement focus (flow of economic resources) is based upon determination of net income. The following is the City’s proprietary fund type.

Enterprise Funds: Enterprise Funds are used to account for operations, which include the Water & Sewer Fund, the Sanitation Fund, Storm Water Fund, and the Fire Protection Fund, that are significantly financed through user fees and/or for which a governing body desires periodical information on costs.

Basis of Accounting

The basis of accounting determines when financial transactions are recorded in the accounts of the various funds used by the City.

Governmental Fund Types: The modified accrual basis is followed in the Governmental Funds. Such funds include the General Fund, Special Revenue Funds and Capital Improvement Funds. The modified accrual basis of accounting recognizes revenues in the accounting period in which they become available and measurable as current assets. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or expected to be collectible soon enough thereafter to be used to pay liabilities of the current period.

Proprietary Fund Types: The full accrual basis is followed in the Proprietary Funds. Such fund types include two sub-types: Enterprise Funds and Internal Service Funds. The City does not have any Internal Service Funds. The full accrual basis of accounting recognizes transactions and events when they occur, regardless of the time of the related cash flow.

Budget Adjustments/Amendments

From time to time it becomes necessary to modify the adopted budget. Any change that needs to be made to the budget must be presented to and approved by the Mayor and Council. There are different scenarios which require amendment of the budget. One type of change (budget adjustment) is when the "bottom line" total for a department or fund does not change the approved budget. The second type of change is a budget amendment that alters the total appropriation for a department or fund. The City Ordinance permits the Mayor and Council to make changes in the appropriations contained in the current operating budget. Circumstances requiring an amendment include but are not limited to:

- Approval of new expenditure
- Transfer from one line item to another within a department
- Appropriation of additional funding if expenditures are projected to exceed budgeted amounts; or
- The re-appropriation of monies from one department to another when deemed necessary.

Budget amendments are a last resort of the City Manager. It is a standing policy that departments discipline themselves to initial appropriations made in the original budget ordinance passed at the beginning of the fiscal year.

Purchasing Policy

Procurements of goods and services by the City are made in accordance with the purchasing policy of the City of Garden City in the City's Code of Ordinance. The Purchasing Ordinance was amended in July 2007 and at that time established dollar limits and buying parameters were set. The ordinance describes the accepted methods for source selection including professional services, construction acquisitions, and disposal of property. It explains contracting procedures including bonding, insurance and vendor performance.

All purchases shall be based on an approved budget for which funds have been allocated. Emergency purchases may be authorized by any department head; however, a letter of justification must be submitted to the City Manager as soon as practical. Any purchase made under these conditions for which funds have not been budgeted shall be presented to the Mayor and Council for approval at the next scheduled meeting.

The intent of the City's purchasing policy is to provide for the fair and equitable treatment of all persons involved in public purchasing by the City, to maximize the purchasing value of public funds in procurement, and to provide safeguards for maintaining a procurement system of quality and integrity.

Budgets and Budgetary Accounting

Annual budgets are adopted for the General Fund, Hotel Motel Fund, Confiscated Fund, Tourism Fund, Special Local Options Sales Tax Fund and the Enterprise Funds. These budgets are adopted on a basis consistent with Generally Accepted Accounting Principles (GAAP).

The General Fund budget is prepared on the modified accrual basis of accounting. Under this basis, revenues are recognized when they become measurable and available to finance expenditures of the current period. Expenditures are recognized when the related fund liability is incurred.

The Hotel Motel Fund, Confiscated Fund and the Tourism Fund budgets are also prepared on the modified accrual basis of accounting. Under this basis, revenues are recognized when they become measurable and available to finance expenditures of the current period. Expenditures are recognized when the related fund liability is incurred.

The Special Purpose Local Option Sales Tax (SPLOST) capital projects fund accounts for the receipt and use of local government shared revenues (SPLOST proceeds) to be used for the acquisition, construction, or improvement of capital facilities approved in the City's intergovernmental agreement with Chatham County, Georgia.

The Water and Sewer enterprise fund operates the sewage treatment plant, sewage pumping stations and collection systems, and the distribution of water. The operations of this fund are financed and operated in a manner similar to private business.

The Stormwater enterprise fund operates the City's stormwater drainage systems and the Sanitation enterprise fund operates the City's garbage pickup service. The operation of these funds are financed and operated in a manner similar to private business.

All appropriated budgets are prepared by fund, function and department. Transfers of appropriations between departments require the approval of Mayor and Council. The legal level of budgetary control is the department level; department heads have the authority to purchase budgeted items up to a \$500 maximum without prior approval of the City Manager. The City Manager is authorized to approve budget transfers among line items within a specific department. Such transfers, however, are infrequent as department heads are encouraged to stay within the approved line item budgeted levels.

Investment Policy

The City adheres to treasury management practices permitted by state statutes and adopted investment policies. Recognizing that deposit and investment transactions are subject to a variety of risks, the City seeks to promote the safety of principal, provide adequate liquidity for operational needs, earn market rates of return on investments consistent with liquidity needs and investment quality, and conform to legal requirements. The City, subsequently, limits its investments to the types of securities provided by state statutes, considering first the probable safety of capital and then the probable income to be derived.

Reporting Policy/Audit

Each fiscal year, an independent firm is contracted to perform an audit of the City's basic financial statements. The City's fiscal year runs from January 1 to December 31. Audits are performed in accordance with Generally Accepted Audit Standards issued by the Comptroller General of the United States. The annual audit report is public record and, therefore, available to the public for review.

The City produces monthly financial statements reporting the activity for funds maintained by the City. In an effort to ensure Mayor and Council are thoroughly informed, in depth quarterly reports are also prepared.

The City prepares an annual budget document providing basic understanding of the City's planned financial operations for the coming fiscal year. Copies of the proposed and final budget are made available to all interested parties for citizen review and input prior to final Mayor and Council adoption of the budget. This year the City will submit copies of the approved budget to the Government Finance Officer Association (GFOA) Distinguished Budget Presentation program.

Debt Policy

The City will pay for all capital projects and capital improvements with pay as you go financing, using current revenues when possible. If a project or improvement cannot be financed with current revenues, long-term debt might be recommended.

Capital Improvement Policy

The City will prepare annually and update a five-year Capital Improvements Program (CIP) beginning in FY 2012, which will provide for the orderly maintenance, replacement

and expansion of capital needs. The CIP will identify long-range capital projects and capital improvements of all types that will be coordinated with the annual operating budget to maintain full utilization of available resources. Additionally, the City will seek federal, state and other funding to assist in financing capital projects and capital improvements.

A capital outlay is defined as an item or project that costs \$5,000 or more and has an "economic useful life" of one year or more.

Reserve Policy

The City will maintain a minimum reserve in Undesignated Fund Balance of 50% of the total amount budgeted in the General Fund. If existing reserves exceed the required level, such funds may be used to provide for non-recurring expenditures as approved by Mayor and Council.

Budget Control Guidelines & Monitoring

It is the responsibility of each department head to control expenditures and expend funds only for items that are budgeted. The budget ordinance stipulates that expenditures shall not exceed the appropriation authorized by the budget. No increase in the overall budget for any one department shall be made without the approval of the Mayor and Council. Refer to "Budget Amendments" for additional details.

Expenditure Control

An operational control of departmental budgets is maintained by a preliminary check of funds availability on a line-item basis. Each department is responsible for ensuring funds are available within the specific line item before the issuance of purchase orders. In the event of insufficient funds within a department, additional information must be submitted to justify the purchase after which a budget amendment will be done. Budgetary control is established at the department level, not by individual line items within the department.

Budget Preparation Process

The Finance Department oversees the budget preparation process. The budget is composed of three levels: (1) Department Request, (2) City Manager's Proposal, and (3) the Mayor and Council Approved Budget. The City Manager is responsible for formulating finance and policy priorities. Specific steps in the budget preparation process include the following:

Budget Preparation Package: In early July budget preparation packages are distributed to all department heads.

City Manager Overview: After the budget packages are distributed, the City Manager gives the time line for their budget request to be submitted to Finance. Each department head meets with the Finance Director for additional directions in preparation of the budget and identify funding priorities.

Goals, Objectives and Tasks: During the month of August, department heads submit their budget requests to the Finance Director. Goals, objectives and tasks are submitted to the Finance Director for preliminary review. Afterward, the package is submitted to the City Manager for review.

Analysis of Departmental Budgets: In mid September, department heads meet with the City Manager to review their submitted budget requests. During October the Finance Office compiles the proposed budget for submittal to the City Manager with subsequent submittal to Mayor and Council.

City Manager's Proposed Budget Formally Submitted to Mayor and Council for Review: The City Ordinance stipulates that the proposed budget document must be submitted by the City Manager to the Mayor and Council each year forty (40) days prior to the beginning of the next fiscal year. The proposed budget is made available to the public for review during this period.

Consideration of Budget: From the beginning of October through mid November, Mayor and Council have the opportunity to ask questions, and make revisions to the proposed budget document.

Public Hearing: A public hearing is held, typically in the second half of November, after the work sessions with Mayor and Council are complete. The public hearing permits direct input from citizens. The budget workshop(s) are held prior to the public hearing and are typically in the first half of October.

Budget Adoption: At the first regular scheduled Council meeting in December, the Mayor and Council enact an appropriation ordinance for the ensuing fiscal year. The ordinance details all anticipated revenues to be received during the fiscal year, all anticipated expenditures for the fiscal year and all payments to be applied toward the City's indebtedness.

The budget calendar on the following pages details the City's budget preparation process.

Fiscal Year

The fiscal year of the City begins on January 1st of each year and ends December 31st of the same year.

January 1, 2011	FY11 Budget is in effect.	All Departments

Funds, Debt Summary & Financial Trends

FUND SUMMARIES

The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise the City's assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for with individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The City of Garden City utilizes three major governmental fund types and four enterprise funds. The governmental fund types are the General, Special Revenue, and Capital Project. The enterprise funds are the Water & Wastewater, the Sanitation, the Stormwater, and the Fire Protection.

General Fund

The General Fund is the general operating fund of a City. This fund is used to account for all financial resources except those required to be in another fund. By definition, the City has only one General Fund.

Special Revenue Funds

Special Revenue funds account for revenue sources that are legally restricted to expenditures for a specific purpose. The City has three special revenue funds.

Hotel-Motel Fund

The Hotel Motel Fund is used to account for funds received from a 6% hotel/motel tax placed on hotels and motels in the area. Monies are distributed as mandated in the city ordinance to promote tourism in the City.

Confiscated Fund

The Confiscated Fund is used to account for funds received from participation in drug related cases. The monies are used by the City of Garden City Police Department to purchase necessary equipment and supplies; it cannot be used for wages and benefits. Any projected fund balance automatically carries over to the next year.

Tourism Fund

The Tourism Board Fund was created in FY 2007 for the purpose of promoting tourism in the City of Garden City. Revenues for the fund are raised from a hotel-motel tax placed on hotels/motels conducting business within city limits.

Capital Project Funds

Capital Project Funds are used to budget and account for the acquisition or construction of all capital equipment or facilities, costing \$5,000 or more and having an economic useful life of one (1) year or more (other than those finance by Proprietary Funds, Special Assessment Funds, and Trust Funds).

Special Purpose Local Option Sales Tax Fund

The City uses one Capital project fund for its SPLOST funds. In 2006, the citizens of Garden City re-approved a 1% Special Purpose Local Option Sales Tax for the purpose of funding capital improvement projects. Approved projects include: streets, drainage and sidewalks; parkland acquisition and renovations; a convention center; fire equipment; and other projects.

Proprietary Funds

Proprietary Funds are used to account for the City's ongoing activities which are similar to those often found in the private sector. The measurement focus (flow of economic resources) is based upon determination of net income. The City has four Enterprise Funds which fall under the category of Proprietary fund types.

Water/Wastewater Fund

The Water/Wastewater Fund is divided into three divisions which provide the City with safe, palatable drinking water while maintaining an environmentally safe operation. The Water/Wastewater Fund encompasses the Wastewater Treatment & Collection, Water Treatment and the Water/Sewer Billing, Distribution, & Repair division.

Sanitation Fund

The Sanitation Fund is used to account for the collection and disposal of residential refuse, recycling, and dry-trash. In an effort to be more environmentally friendly, the City added single-stream recycling to its utility bill at no extra cost to its citizens. Dry-trash is currently collected once a month and is also free of charge.

Stormwater Fund

The Stormwater Fund is used to account for the City's stormwater management program. According to our program, the City must undertake various activities including the cleaning of ditches and other stormwater conveyance systems; replacement of aging

culverts and drainage structures; and construction of new culvert systems to increase or improve conveyance capacity.

Fire Protection Fund

The Fire Protection Fund is used to account for the monies collected from the City's fire protection fee. The fee was implemented in order to procure the necessary resources to maintain and further improve the City's Insurance Services Office (I.S.O) rating as well as fund the ongoing operations of the Fire Department.

Included hereinafter are the following fund summaries, listed in the order they appear in this chapter:

Confiscated Fund (210)**Special Revenue Fund**

The Confiscated Assets fund consists sole of confiscated, condemned funds released by the court system. The monies are used by the City of Garden City Police Department to purchase necessary equipment and supplies; it cannot be used for wages and benefits. Any projected fund balance automatically carries over to the next year.

Debt Summary

Debt History

GEFA Loans – The City has entered into loan agreements with the Georgia Environmental Facilities Authority (GEFA), a state agency. The GEFA makes low interest long-term loans to fund improvements to publicly owned water and sewer systems.

SRF Loan – The City has also entered into a loan agreement with the State of Georgia under the State Revolving Loan Fund Program (SRF). The SRF makes low interest loans to public sewer systems for capital improvements.

Capital Leases - The City has entered into lease agreements as lessee for financing of equipment and vehicles used in governmental activities. These lease agreements qualify as capital leases for accounting purposes and, therefore, are recorded at the present value.

City Hall Construction Loan – The City has entered into a loan agreement with BB&T to finance the construction of the New City Hall through the Georgia Municipal Association (GMA) Bricks and Mortar Program. The Bricks and Mortar Program is structured to comply with Section 36-60-13 of the Official Code of Georgia Annotated, as amended (the Georgia statute for municipal lease-purchase financing), and provide low costs of issuance for member cities.

The following schedules show the details of the City’s Long-Term Debt Service requirements to maturity:

Total	\$ 9,950,000	\$ 1,924,312	\$ 11,874,312

Debt Limitation

The City of Garden City does not have any general obligation bond debt and does not intend to enter into any bonded debt in the future.

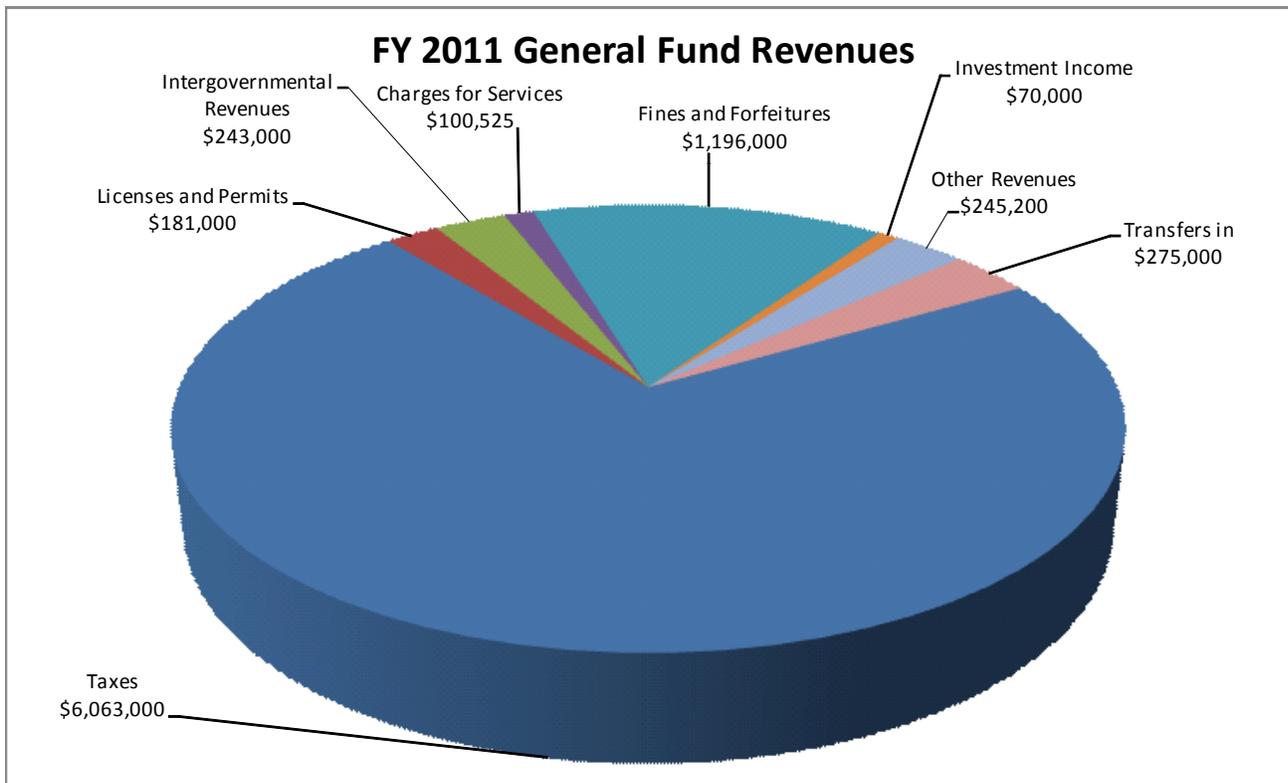

Financial Trends

Financial trends offer a practical approach for monitoring the economic health of the City. This trend summary provides a global view of the past and present financial resources of the City.

General Fund Resources

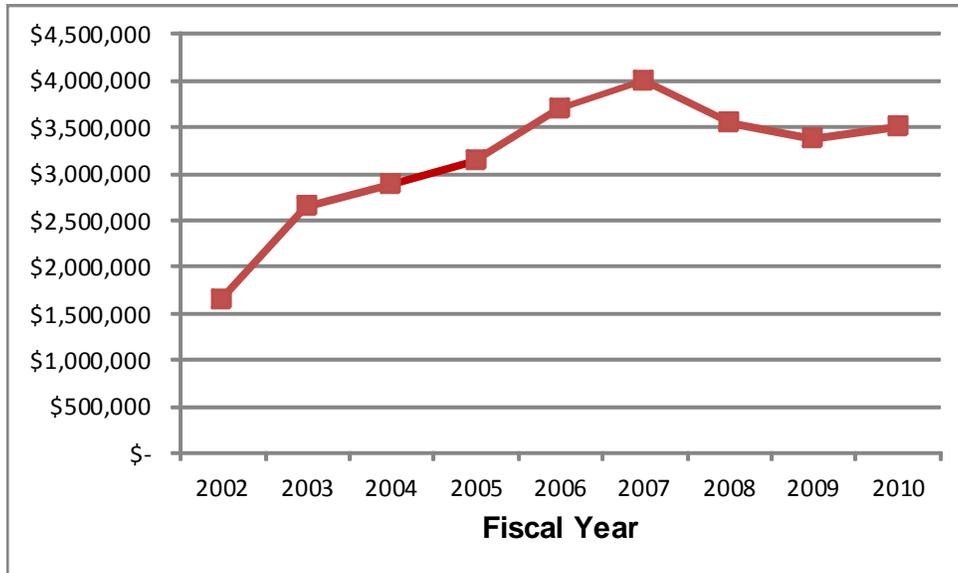

Total General Fund resources are anticipated to increase 1.67% or \$137,646 from the FY 2010 amended budgeted amount to a total of \$8,373,725. General Fund resources available to the City of Garden City in FY 2011 include “revenues” of \$8,098,725 and transfers in from the Hotel/Motel Fund of \$80,000, the Water and Sewer Fund of \$150,000, and the Stormwater Fund of \$45,000.

The largest sources of General Fund resources are the Local Option Sales Tax (LOST) - \$3,615,000 and Excise Taxes - \$2,448,000. Fines and Forfeitures are also a large source of revenue at \$1,196,000. Other minor taxes and revenues round out the diverse financial resource streams within the General Fund.

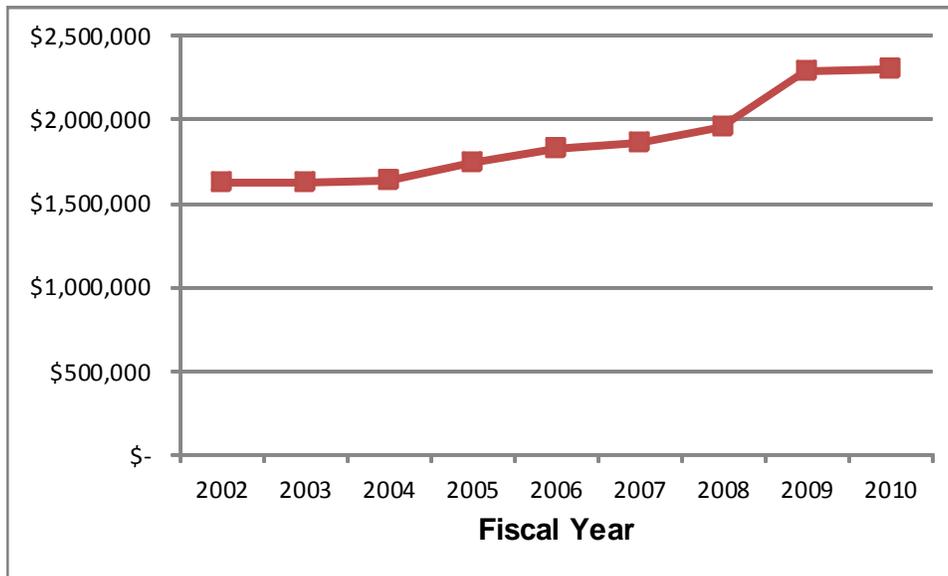

Local Option Sales Tax

Since the City does not have property taxes, it relies heavily on the Local Option Sales Tax (LOST). This source of revenue accounts for roughly 43% of General Fund revenues. The City depends on this source of municipal financing to deliver the high quality of services to the citizens. The City expects to receive \$3,615,000 in LOST funds in FY 2011. Trend analysis, estimated growth in the number of retail commercial businesses and observation of local retail business conditions are the primary means of forecasting this revenue source.

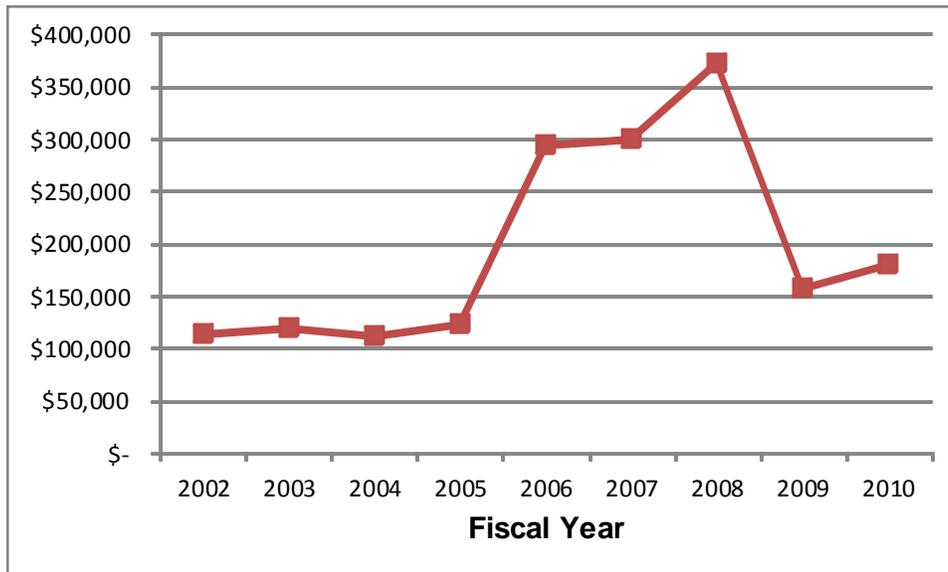

Excise Taxes

Taxes in the excise tax category include: Franchise Taxes (Electric, Gas, Television Cable, and Telephone), Alcoholic Beverage Taxes, Local Option Mixed Drink Taxes, Business and Occupation Taxes, Insurance Premium Tax, and Financial Institution Tax. In FY 2011 the City expects to garner \$2,448,000, a 6% increase, or \$140,909 over the FY 2010 Amended Budget. Forecasted similarly to the sales tax, excise tax revenues are directly related to the health of the local economy.

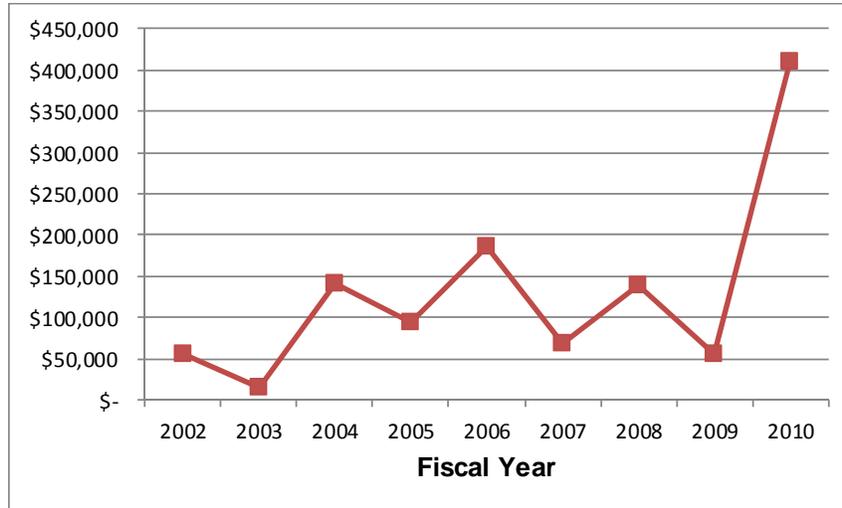

Licenses and Permits

Licenses and Permits revenues are comprised of regulatory fees, alcoholic beverages licenses, non-business licenses and permits, and various other permits. The City projects these revenues will bring in \$181,000 in FY 2011. This represents no change from the FY 2010 Amended Budget. Trend analysis and anticipated construction starts are the primary forecasting tools used for this revenue stream. Based on recent trends and anticipated construction projects the City expects building permit revenue to remain flat in FY 2011 and for the next several years.

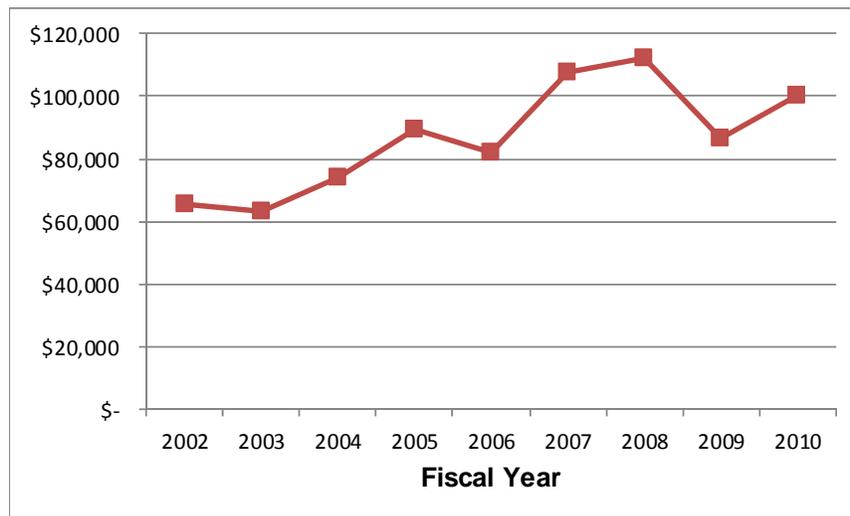

Intergovernmental Revenues

In FY 2010, the City was awarded two grants from the Federal government to allow the City to fully staff our Police Department as well as hire five additional firefighters. These grants will help the City continue to provide a high level of public safety for the citizens of Garden City. Beginning in FY 2011, the City created a Fire Protection Enterprise Fund, and as such, the Fire Department grant will be reflected in that fund. The City is also reimbursed by Chatham County for two police officers on the Counter Narcotics Team (CNT). The City's General Fund is expected to receive \$243,000 in FY 2011.

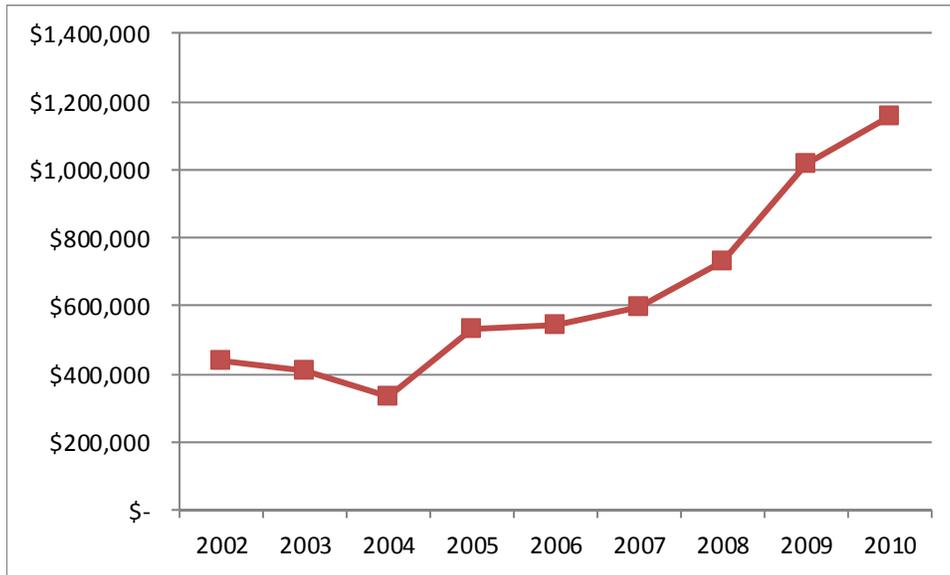

Charges for Services

The City charges fees for several of the services it provides to its citizens. Some examples of such fees are Summer Camp Fees, fees for renting the pool, false alarm charges, and accident report fees. Charges for services is projected at \$100,525 in FY 2011. This represents no change from the FY 2010 Amended Budget. Trend analysis is the primary means of forecasting this revenue source.

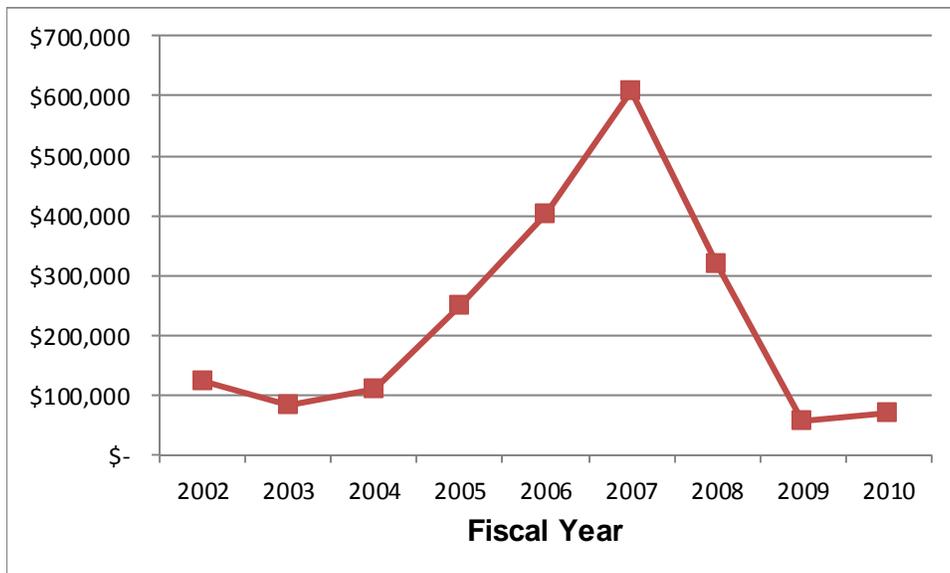

Fines and Forfeitures

Fines and Forfeitures are projected to garner a total of \$1,196,000 in FY 2011. This represents an increase of 3% or \$40,000 over the FY 2010 Amended Budget. Trend analysis is the primary means of forecasting this revenue source.

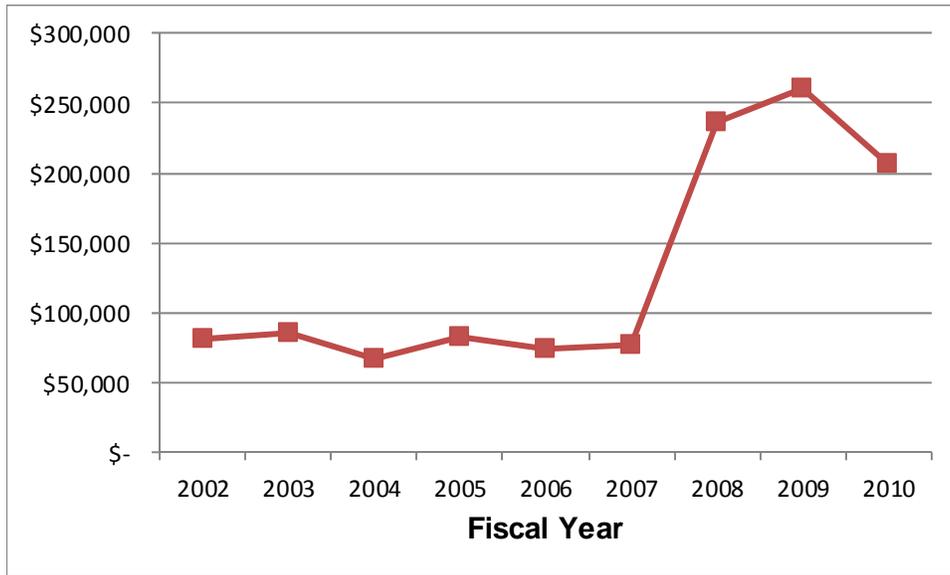

Investment Income

Due to the health of the local economy and the use of available monies for financing the new City Hall, the amount of revenue generated by investment income is projected at \$70,000. This represents no change from the FY 2010 Amended Budget.

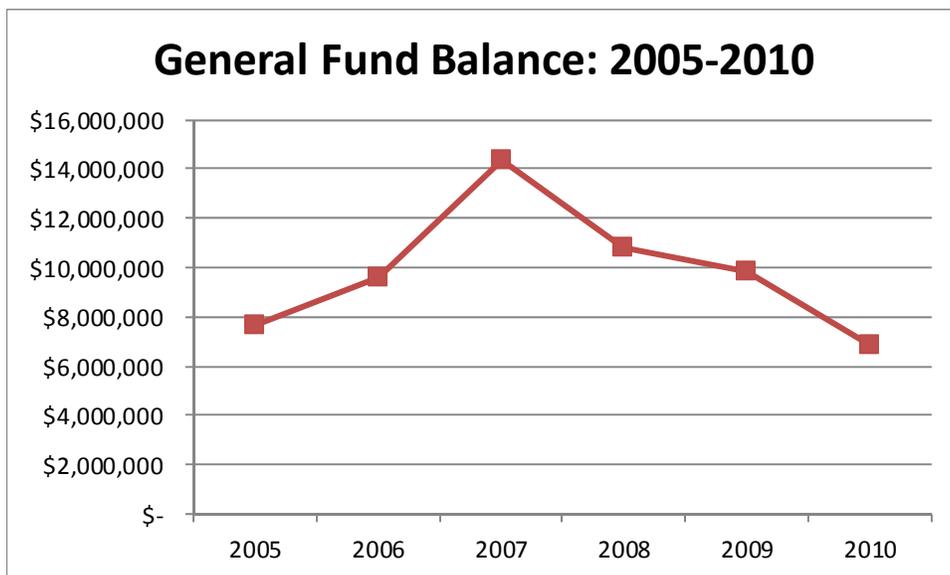

Other Revenues

The City has certain revenues that do not fit in any of the other categories. These revenue sources are grouped together in the Other Revenues source. In FY 2011, these revenues are projected to bring in \$245,200 to the City. This represents an increase of 19%, or \$38,800 over the FY 2010 Amended Budget.

General Fund Balance

Over the past three years, the General Fund Balance has declined by \$7,526,460 or 52% due to the construction and development of the New City Hall and Town Center. The use of fund balance was a conscious decision on the part of City Council to keep the City's debt at a minimum level.

SPLOST Funds

Over the past twelve years the citizens have approved a Special Purpose Local Option Sales Tax at five year intervals to provide revenues for capital projects. The FY 2011 Budget includes the three SPLOST's voted in 1998, 2003 and 2008.

Funds generated by SPLOST 98 tax was estimated to generate close to \$3,000,000 over the life of the tax (5 years). These funds allowed the City to complete numerous capital projects which enhanced services provided and improved the quality of living for citizens. A partial listing of those capital projects follows.

- Lift Station upgrades
- Stadium upgrades
- Construction of a new bike path
- Street improvements

SPLOST 03 tax revenues was estimated to generate more than \$4,000,000 over the five years. The revenues generated by this tax are allocated to the projects listed below.

- Construction of a new City Hall
- Improvements to our drainage system
- Purchasing of new financial software
- Street improvements
- Improvements to Water/Sewer lines

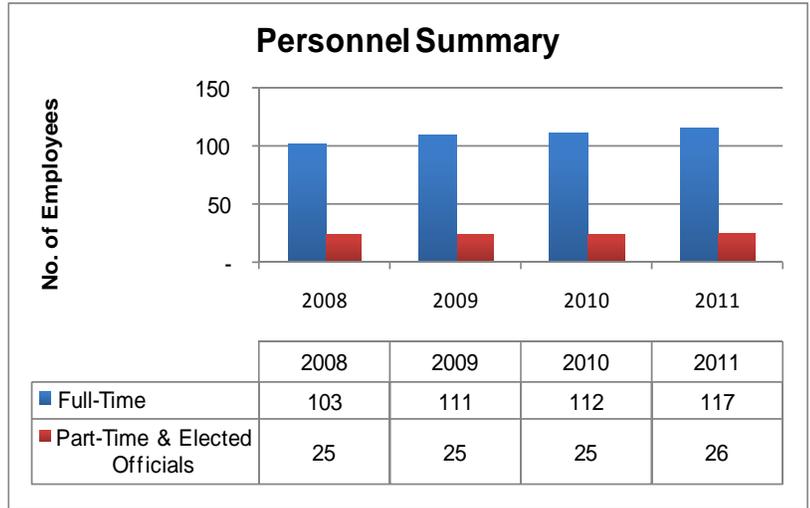

SPLOST 08 tax revenues is estimated to generate more than \$6,100,000 over the five years. The revenues generated by this tax are allocated to the projects listed below.

- New City Hall debt service payment

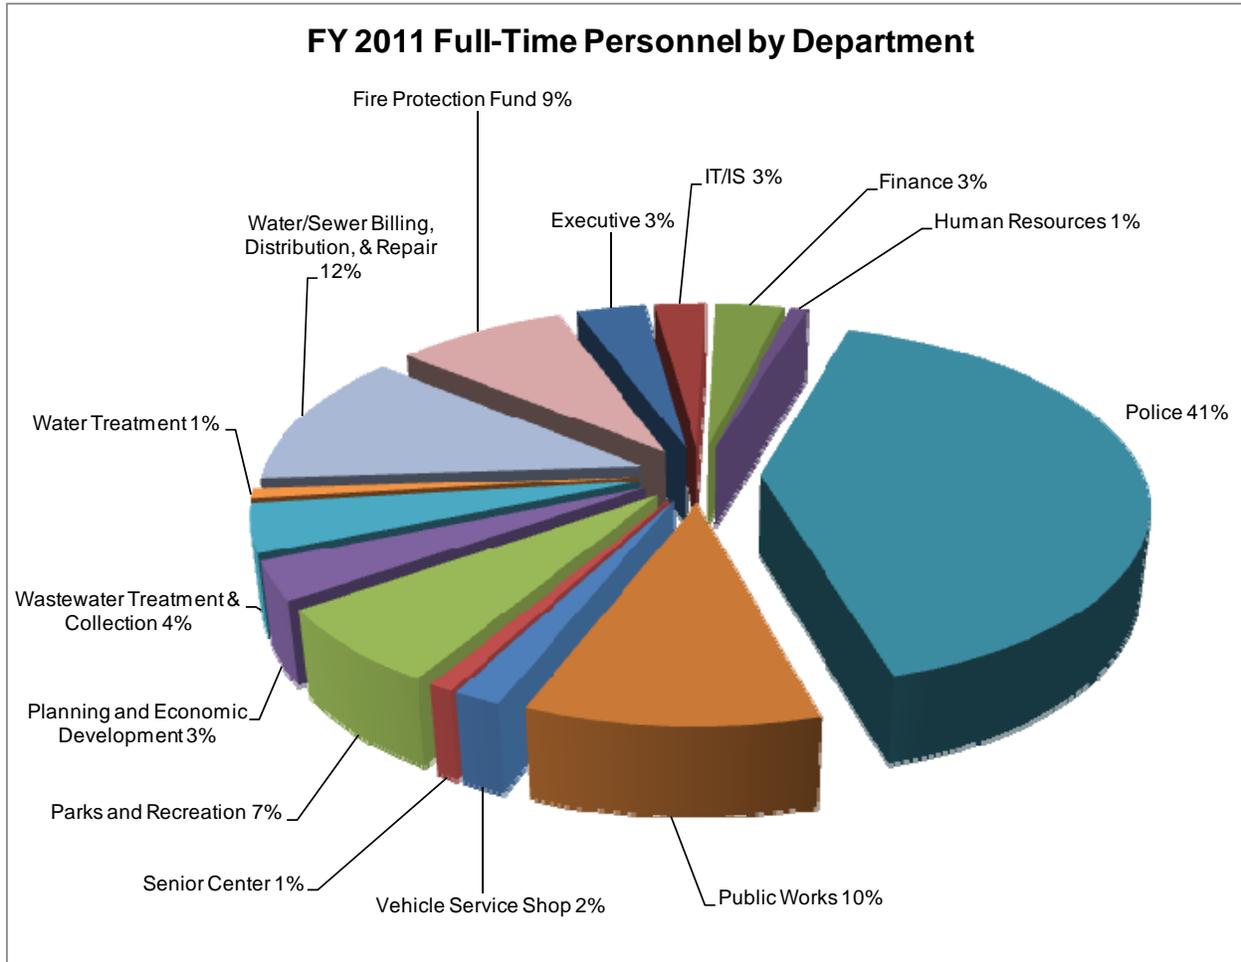

Personnel Summary

Dedicated Service

The City of Garden City is committed to a level of excellence in the quality and delivery of all programs and services. In the FY 2011 Approved Budget, 117 full-time, 18 part-time employees, and 8 elected officials are approved to meet the daily needs of our citizens and visitors. These employees preserve our public safety, ensure our water is clean and available upon demand, preserve our economic well being by attracting businesses and supporting commerce, maintain our streets and other infrastructure, protect our homes and businesses, provide our youth and seniors with quality programs, and handle the numerous daily duties necessary in the delivery of services to its citizens.

Highlights

Over half of the employees of the City provide a direct service to the citizens of Garden City. As shown in the chart below, the Police department makes up 41% of the total City of Garden City’s workforce. The Water and Sewer divisions make up the next largest portion of the City of Garden City’s workforce with 17% of the total City’s workforce.

In FY 2010, the City made the decision to hire a full-time Custodian rather than contracting it out, and that position was placed in the IT/IS Department. Within the Finance Department, the Assistant Finance Director position will be deleted and the current Assistant Finance Director will be promoted to Finance Director. The Fire Department’s personnel are being reflected in the Fire Protection Fund. The City secured a grant in FY 2010, which allowed us to hire an additional five firefighters. The City will also hire an Emergency Management Coordinator in FY 2011. The Water/Sewer Fund will reduce personnel by one Water/Sewer Tech. The full-time staffing levels for the Executive, Human Resources, Police, Public Works, Vehicle Shop, Senior Center, Recreation, and Planning and Economic Development Departments are remaining flat for FY 2011.

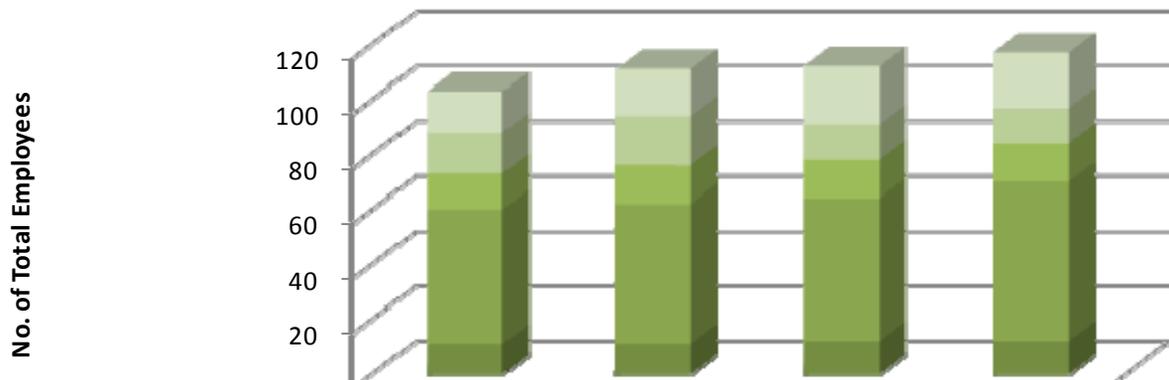

City Functions

The City groups the various services provided by its employees into five functional areas: General Government, Public Safety, Public Works, Community Development, and Utility Services. Each of these areas includes departments and/or divisions as needed to provide the necessary supervisory support in the development and delivery of related programs and services.

**City Functions
Departments/Divisions**

General Government	Public Safety	Public Works	Community Development	Utility Services
Legislative Executive Finance Human Resources IT/IS	Police Fire Emergency Management	Streets and Drainage Vehicle Service Shop Stormwater	Planning and Zoning Parks and Recreation Senior Center	Water & Sewer Sanitation

Public Works	13	14	14	14
Public Safety	49	51	52	58
General Government	11	11	12	12

Employee Benefits

The FY 2011 Personal Services budget funds the salary and fringe benefits package offered to all employees. The Personal Services budget also reflects the funds appropriated to implement a human resource system with its primary goal to establish an environment which affords each employee the opportunity to be the most productive he or she can be. This goal is met through human resources planning, recruitment and selection, orientation, employee services, benefits administration, performance appraisal, wage and salary administration, and pension plan administration.

The City of Garden City provides a total benefit package that includes the following:

- Salaries
- Paid Time Off
- Critical Care Pay
- Holiday Pay
- Group Term Life Insurance
- Group Health Insurance
- Group Long-Term Disability
- Defined Benefit Retirement Plan
- Defined Contribution Retirement Plan
- Medical Flexible Spending Account
- Paid Time Off
- Educational Assistance
- Work-Life Balance

The main role of the Human Resource Department is to create an environment in which a contented, healthy, skilled, and committed City of Garden City workforce can operate with the prospect of increased rewards through increased efficiency.

Salaries

Garden City's salaries conform to all State and Federal Guidelines. The salary package includes pay for holidays, paid time off, critical care leave, bereavement leave, and quality increases. As customary, salary accounts include regular salaries, overtime salaries, and part-time salaries.

Paid Time Off

It is the policy of Garden City to provide all active, regular, and introductory full-time and part-time employees with time off for personal use. Eligible employees will be able to accrue hours for vacation, sick, or other personal reasons through the Paid Time Off Leave System (PTO).

Accruals are based upon paid hours up to 2080 hours per year, excluding overtime. Employees working less than 40 hours per week and at least 20 hours per week will earn PTO days at one half the full-time rate. (See table)

Years of Service	Full-time Employee Annual PTO Days	Part-time Employee Annual PTO Days
0-1	20	10
2	21	10.5
3	22	11
4	23	11.5

11	30	15
12	31	15.5
13	32	16
14	33	16.5
15	34	17
16 and greater	35	17.5

Paid Critical Leave Reserve

The City allows employees to establish a Paid Critical Leave Reserve (PCLR) account on his or her anniversary date, by depositing some number of hours of his or her accrued but unused PTO hours into the PCLR.

PCLR hours are used for the 3rd consecutive day and beyond of an absence due to an injury or illness of an employee or the employee's immediate family which requires the employee to be absent for any reason outlined under Family and Medical Leave Act.

In addition, provided the employee has accumulated 240 hours in a PCLR account, the employee will be permitted to convert up to forty (40) hours of PTO to cash at the end of the calendar year.

Holidays

It is the policy of the City to designate and observe certain days each year as holidays. Eligible employees will be given a day off with pay for each holiday observed.

The schedule of holidays the City will observe during each calendar year is as follows:

New Year's Day	Thanksgiving Day
Martin Luther King, Jr's Birthday	Day-after Thanksgiving Day
Good Friday	Christmas Eve
Memorial Day	Christmas Day
Independence Day	Floating Holiday
Labor Day	

Group Term Life Insurance

The City currently provides \$15,000 for eligible employees' life insurance. To be eligible for this coverage, an employee must work at least 40 hours per week. Employee coverage becomes effective following 31 days of continuous employment. Life insurance coverage is provided at no cost to the employee. In addition to the \$15,000 life insurance program, the City made available term life insurance in amounts up to \$500,000 for voluntary purchase by the employee.

Group Health Insurance

The City currently offers eligible employees medical and dental coverage. To be eligible for this coverage, an employee must work at least 40 hours per week. Employee coverage and dependent coverage, if elected, becomes effective following 31 days of continuous employment.

Currently, employees have two health plans from which to choose: a Preferred Provider Organization Plan (**PPO**) or the Health Maintenance Organization Plan (**HMO**). The City upgraded the Employee Group Dental Plan to a plan with greater coverage amounts for employees and lower co-pays on services obtained from preferred providers.

Bi-Weekly PPO Premiums

	Group Medical Only	Group Dental Only
Single Coverage	\$24.06	\$5.08
Employee/Spouse	\$162.67	\$10.47
Employee/Child	\$111.50	\$11.62
Family(Employee/Spouse/Child)	\$273.66	\$17.00

Bi-Weekly HMO Premiums

	Group Medical Only	Group Dental Only
Single Coverage	\$14.41	\$5.08
Employee/Spouse	\$89.29	\$10.47
Employee/Child	\$73.90	\$11.62
Family(Employee/Spouse/Child)	\$179.18	\$17.00

* Premiums are subject to change.

Group Long-Term Disability

The City provides eligible employees Long Term Disability Insurance through UNUM. Their long term disability policy provides a monthly benefit of 60% of monthly earnings to a maximum benefit of \$5,000 per month. Benefits begin after the completion of a 90 day elimination period.

Defined Benefit Retirement Plan

The City automatically enrolls employees in the Georgia Municipal Employee Benefit Services (GMEBs) Plan upon the completion of one year of service. The City contributes 100% of contributions to a retirement account for of each eligible employee. After completing 5 years of service you are 100% vested in the plan.

Upon retirement vested employees will receive a defined retirement benefit based on:

- Years of service with the City of Garden City
- Annual gross income for the five consecutive years that their earnings are/were the highest (usually your last 5 years of employment prior to employment).

The following changes/upgrades were made to the GMEBs Plan in FY 2008:

- Vesting Period: Changed from a 10-year graduated vesting to a 5-year cliff vesting
- Benefit Formula Percentage: Increased from 1.75% to 2%
- Paid Critical Leave will now count as credited service toward meeting the minimum service requirements for retirement benefit eligibility

Defined Contribution Retirement Plan

The City participates in a defined contribution plan that is administered by ICMA-RC Retirement Services. In FY 2008, the City began a matching contribution to the 457 plan. The City will match 50% of the employee's contribution to the 457 plan up to 6%. In other words if an employee contributes 6% of his/her income, the City automatically matches 3%.

Employees are fully vested in the 401 Employer Plan, the City match, upon completion of 4 years of service. The vesting schedule is as follows:

- 0% 1 Year of Service
- 50% 2nd Year of Service
- 75% 3rd Year of Service
- 100% 4th Year of Service

Medical Flexible Spending Account

The City allows employees to participate in a Flexible Spending Account, which allows them to save a predetermined amount over the entire year for those medical expenses that are not covered by their health plan, dental plan, or any medical coverage they may have. In 2009, the City increased the Flexible Medical Spending amount from \$1,500 to \$2,300 per year.

Educational Assistance

The City of Garden City recognizes that the skills and knowledge of its employees are critical to the success of the City. The Education Assistance Program encourages personal development through formal education so employees can elect to maintain and improve job related skills or enhance their ability to compete for reasonably attainable jobs within the City of Garden City.

Work-Life Balance

The City of Garden City understands the importance of striking a healthy work-life balance for its employees. In 2009, the City added two new benefits to help achieve this goal: an Employee Assistance Program (EAP) and access to the Savannah Consumer Credit Counseling Service (SCCCS).

The EAP is sponsored by UNUM and gives employees unlimited access to consultants by telephone, resources and tools online and up to three face-to-face visits with counselors for help with a short-term problem. The program also allows for a free, 30 minute in-person or telephonic legal consultation with a local attorney.

With all of the economic turmoil facing our country, the City felt it had an obligation to equip its employees with the financial tools needed to navigate through these times. With access to the SCCC, each employee and employee family can receive up to 4 counseling sessions. There the employee can learn everything from how to budget properly to how to raise their credit score.

Departmental Summaries

The City of Garden City provides services to citizens and visitors on a daily basis. The direct provision of said services and the support functions are organized into four functions: General Government, Public Safety, Public Works, and Community Development. The City departments are funded by the General Fund; therefore, departments are listed within one of the four functions. Consequently, the FY 2011 department summaries will be listed according to funding source.

General Fund Functions:

- General Government
- Public Safety
- Public Works
- Community Development

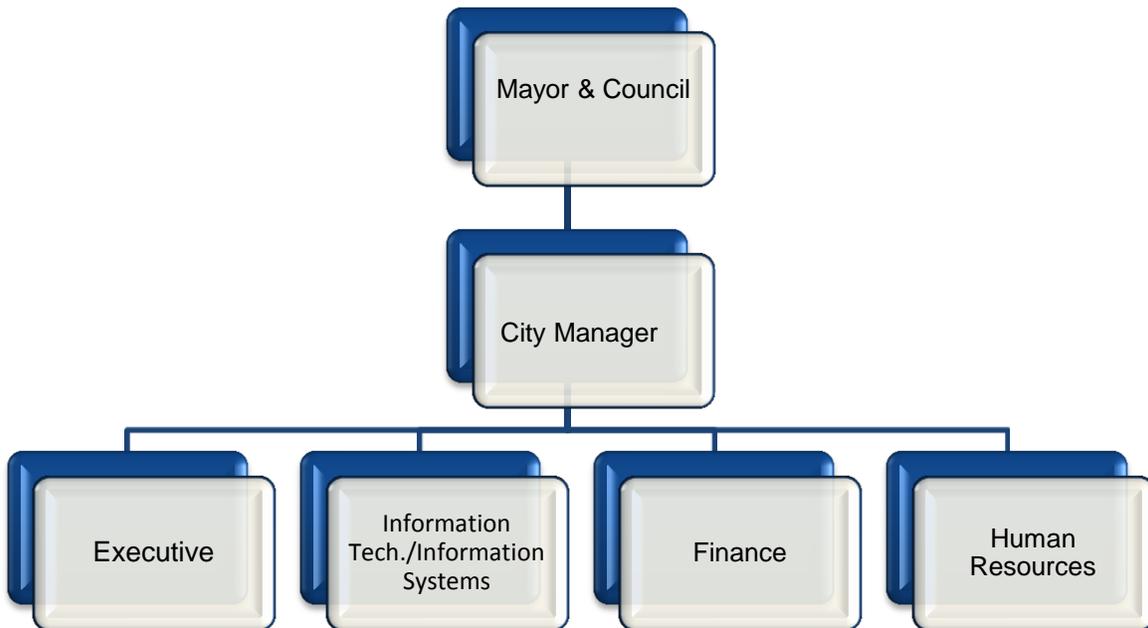

General Government Function

General Government Function is comprised of departments and divisions responsible for the management of the City's resources. This function includes the following departments and divisions: Executive, Information Technology/Information Systems, Finance, and Human Resources.

General Government Function

Organization Chart

General Government

Short Term Priorities & Goals

Priorities:

1. To work with the Mayor and Council to provide necessary resources to develop programs that will enhance the quality of living in the city.
2. To monitor operations of city's departments to see that services are provided in the most efficient and cost effective manner.
3. To submit proposals for grants that would provide funds for projects that would provide infrastructure improvement.
4. To monitor city financial data to see that revenues and expenditures are within the limits set by Mayor and Council.

Goals:

1. To continually be in compliance with all state and federal regulations.
2. To provide opportunities for staff members to be developed in order to better serve the citizens of the city.
3. To provide city services at the highest level possible.
4. To continually monitor growth in residential as well as commercial areas.

Long Term Priorities & Goals

Priorities:

1. To develop programs to improve the delivery of city services and to expand services as required by city growth for Mayor and Council consideration.
2. To offer a work environment which allows the city to attract and retain quality employees.

Goals:

1. To utilize plans, studies, projections, and reports as a guide to formulate long term plans both programmatic and financial in order to effectively handle the growth forecasted for the city.
2. To use new information technologies to develop cost effective means of interactive communications between staff and citizens.
3. To continue to use volunteer boards to their fullest extent.

Legislative Department (1100)

Mission Statement

The Mayor and Council work to obtain a safe, clean, family-oriented community with parks and trees that is poised for future growth and dedicated to the advancement of the community's quality of life.

Department Description

The City of Garden City's Legislative Department is comprised of the Mayor and seven City Council members. Each City Council member is elected at-large on a non-partisan basis for four-year, staggering terms. All policy items are decided by the Mayor and City Council, which is empowered by the City Charter to pass ordinances and resolutions and adopt regulations.

Budget Highlights

In the FY 2011 budget, Legislative Department expenditures total \$617,963, an increase of \$510,854 over the FY 2010 amended budget of \$107,109. The primary reason for the increase is attributed to additional monies being allocated to the Legislative Contingency line item to promote savings during this economic downturn.

Goals and Objectives for FY 2011:

1. Serve as an open and honest provider of information to the citizens of our community
2. Promote the City as an ideal location for new development of residential and commercial uses
3. Support public and private improvement projects and activities that enhance the City
4. Encourage environmental responsibility in economic and community growth

Executive Department (1300)

Mission Statement

The Executive Department is led by the City Manager who provides leadership, vision, and direction to City Service Areas, implements City Council policy, and works with the Mayor, City Council, and administrative staff to craft strategic and financial planning objectives.

Department Description

The Executive Department is made up of the City Manager and his staff and is responsible for the executive management of the highly diverse operations of the City. The City Manager is appointed by the Mayor and Council and serves as Garden City's Chief Executive Officer.

The City Manager also serves in a highly visible capacity as an ambassador for the community and to other governmental agencies. Duties include:

- Oversees the day-to-day functions of the City
- Supervises ten city departments and their personnel
- Presents information and recommendations to enable the Mayor/City Council to make decisions on matters of policy
- Responds promptly and positively to all inquires and requests of citizens
- Disseminates information regarding City activity
- Provides input on regional and state issues which affect the City of Garden City
- Maintains a sound fiscal position for the City through the preparation of the annual budget
- Provides continuous monitoring of financial conditions of the City

Budget Highlights

In the FY 2011 Budget, Executive Department expenditures total \$863,872, an increase of 12.4% or \$95,128 over the FY 2010 Amended Budget. The increase is primarily attributed to the costs associated with a municipal election in FY 2011 as well as the City financing the Dotson House renovation, which will be offset by rent payments from the Tourism Board.

Executive FY 2011 Expenditure Summary (100-1300)

Goals and Objectives for FY 2011:

1. Control and effectively manage current expenditures while seeking to increase traditional revenue resources and pursuing non-traditional funding sources.
2. Continually improve existing programs, regulations, and practices to provide a high level of service to the community.
3. Continually implement policies set forth by the Mayor and City Council to enable them to make decisions on the matter of policy, regional, and state issues which affect the citizens of Garden City.
4. Establish new reporting formats to more effectively convey the financial position of the City on a monthly basis.

Information Technology/ Information Systems Department (1410)

Mission Statement

Garden City's IT/IS Department serves all government officials and citizens of Garden City by providing essential technology information that includes the study, design, development, implementation, support and direct management of all computer-based information systems, specifically software applications and computer hardware

Department Description

Communication between all departments and residents of Garden City requires optimal management and administration of entire systems of computer technology, including data management, networking, troubleshooting, and maintenance of computer hardware and software. IT professionals perform a wide range of skills that extend throughout all aspects of the city.

Budget Highlights

In the FY 2011 Budget, IT/IS Department expenditures total \$356,424, an increase of 4.5% or \$15,416 over the FY 2010 Amended Budget. The increase is primarily attributed to costs associated with City Hall maintenance as well as a full year of personal services costs associated with our custodian position.

Goals and Objectives for FY 2011:

1. Provide information technology, services, tools, and training to empower city staff to excel in their work
2. Continue to maintain and update the City's website to provide citizens with accurate and useful information
3. Install a new time clock system which will allow the City to go to a paperless payroll
4. Research new technologies to reduce cost and give a higher level of service
5. Ensure security, integrity, and availability of technology-based systems

Finance Department (1510)

Mission Statement

The Finance Department is to follow the guidelines established by Mayor and Council and directed by the City Manager. The Finance Department is a resource service to the City of Garden City, and its mission is to manage the financial affairs of the city which includes the efficient and judicious use of available City resources and the stewardship of public funds.

Department Description

The Finance Department is a coordinated team which provides outstanding professional services to all our customers. We promote sound financial practices to ensure that the City's assets are safeguarded and the use of City resources is responsive to community priorities. Public confidence in the fiscal affairs of the City of Garden City is integral to our mission.

The responsibility of the Finance Department is to promote the fiscal soundness of the City so that its social, public safety, infrastructure and life quality obligations will be maintained at the level required and desired by the community.

The Finance Department is responsible for reporting the City's financial condition in an accurate and timely manner, to process and record all monies received by the City, and to process payroll and accounts payable in a timely and accurate manner.

The Finance Department is also responsible for assisting the City Manager, Mayor, City Council, and City agencies in the allocation of resources through financial planning, management information, and budget preparation in accordance with State and Local laws.

Budget Highlights

In the FY 2011 Budget, Finance expenditures total \$305,770, a decrease of 12.2% or \$42,610 under the FY 2010 Amended Budget. The decrease is primarily attributed to a reduction in salaries. The Assistant Finance Director position will be deleted, and the current Asst. Finance Director will be promoted to Finance Director and the Senior Accountant will be promoted to Accounting Supervisor.

Goals and Objectives for FY 2011:

1. Continue to provide monthly and quarterly financial statements to the Mayor, Council, and public for analysis and decision making purposes
2. Submit FY 2011 Budget to the GFOA in anticipation of gaining the Distinguished Budget Presentation Award
3. Submit FY 2010 Comprehensive Annual Financial Report (CAFR) to the GFOA in anticipation of gaining the Certificate of Achievement for Excellence in Financial Reporting
4. Develop performance measurement standards as part of the annual budget process

CITY OF GARDEN CITY

FY2011

DEPARTMENTAL SUMMARIES

5. Review and update the City's capital assets' policies to ensure accurate and efficient reporting of the City's assets
6. Formulate a set of internal control policies and procedures
7. Continue to streamline the occupational tax process by modifying the classification system used, reviewing City ordinances relating to occupational taxes, collecting delinquent taxes and reviewing the billing and collecting processes utilized by City staff
8. Develop desk manuals for all work stations and also develop a written set of year end close out procedures

Human Resources Department (1540)

Mission Statement

The mission of the Human Resources Department is to assist the City in achieving its long-term strategic goals by providing a viable workforce to continually deliver quality services to the citizens and customers it serves.

Department Description

The Human Resources Department administers all aspects of employment within the City, guides efforts to foster a healthy and productive work environment, and advises City leaders on employment related changes that occur with changing business needs.

The Human Resources Department is available to serve City employees, those seeking employment, and individuals inquiring about personnel-related matters.

Budget Highlights

In the FY 2011 Budget, Human Resources expenditures total \$100,357, a decrease of 10.6% or \$11,866 under the FY 2010 Amended Budget. The decrease is primarily attributed to a reduction in Group and Unemployment Insurance, which reflect more accurate estimates.

Goals and Objectives for FY 2011:

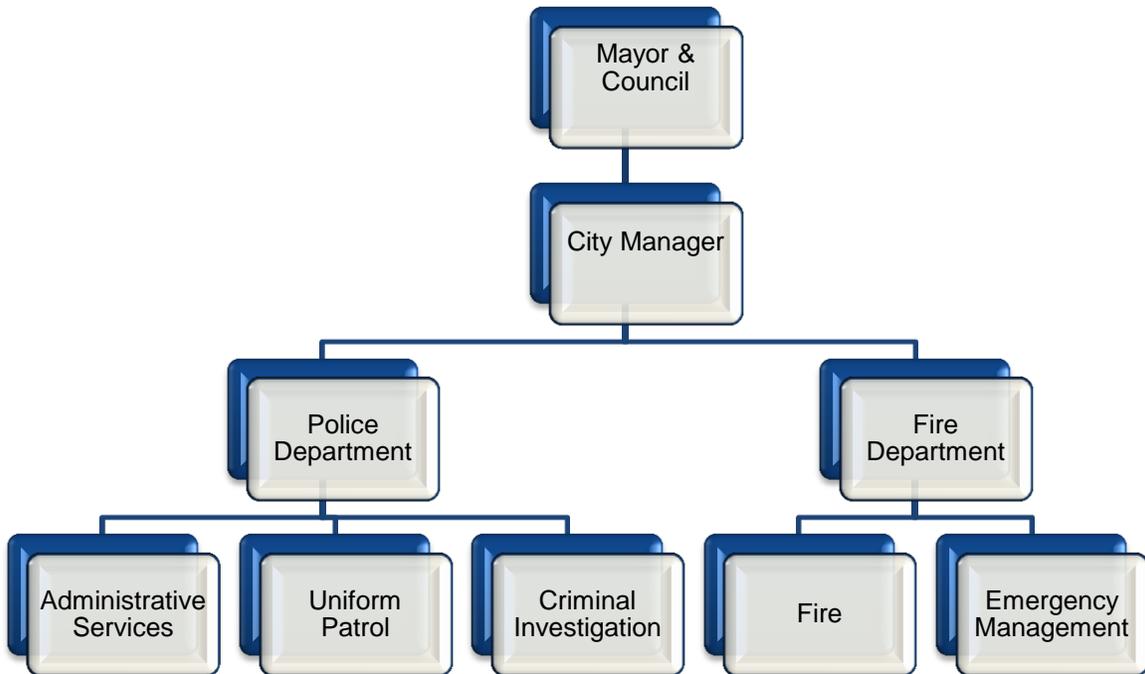

1. Positively influence, encourage, and develop consistently strong and decisive leadership and teamwork throughout the City by actively facilitating the development of programs, policies, and procedures in order to:
 - Attract and retain quality staff in all levels of the organization;
 - Promote effective and efficient utilization of the City's human resources;
 - Establish and maintain a stable and positive employer/employee relationship;
2. Promote and develop the Human Resource Department services to management, the general public and employees through a greater utilization of the City website for publishing forms and policy and optimization of the Human Resources functionality of Great Plains to produce information and reports for decision making across City departments;
3. Complete the City Job Evaluation process and use as the foundation to design a 2009 Compensation Program which will better support the City's management needs and reflect the employee job skills and competencies necessary for operational success;
4. Promote safety and reduce the human and economic hardships which result from accidents/injuries;
5. Provide training and development opportunities which will allow staff to meet personal needs and goals within, which are consistent with City Department goals and objectives

Public Safety Function

The Public Safety function incorporates those departments responsible for ensuring the safety of all residents and visitors to the City. This function encompasses two departments: Police and Fire. The Police Department is composed of 3 divisions: Administrative Services, Uniform Patrol, and the Criminal Investigation. The Fire Department consists of two divisions: Fire and Emergency Management.

Public Safety Function

Organization Chart

Public Safety Priorities & Goals

Short Term Priorities & Goals:

Priorities:

1. To ensure law enforcement personnel and firefighters receive the proper training and materials to conduct their jobs in the safest manner possible.
2. To update equipment as needed and specified by manufacturers' guidelines.
3. To annually recertify all firefighters of core competencies and skills set forth by Georgia Firefighter's Training Specifications.

Goals:

1. To continue educational and training opportunities for employees
2. To provide law enforcement personnel and firefighters with the equipment needed to perform their duties as new technology becomes available and cost-effective.
3. To continually ensure the Internal Investigation division has the tools necessary to perform their duties efficiently and effectively.

Long Term Priorities & Goals:

Priorities:

1. To promote the safety and security of the community through tough proactive law enforcement operations and strategies.
2. To ensure acceptable response times through the acquisition of additional personnel, equipment and satellite locations as required by the continuing growth of the city.
3. To promote fire safety and prevention education to the community through tough proactive prevention strategies.

Goals:

1. To provide employees with the equipment and information necessary to complete their jobs and engage in proactive law enforcement and fire prevention strategies.
2. To maintain adequate building space and geographical locations to ensure acceptable response times.
3. To maintain enough equipment for all personnel in order to handle immediate growth within the City in order to maintain response times.

Municipal Court (2500)

Mission Statement

The mission of the Municipal Court is to provide quality court services to the community by treating all with fairness and equality with an emphasis on integrity, professionalism, and accountability.

Department Description

The Municipal Court conducts hearings in addition to determining all causes of prosecution for violating the laws and ordinances of the City of Garden City and certain laws of the State of Georgia. It has the power to compel the attendance of parties and witnesses and to compel the production of papers, to issue all processes and writs necessary to exercise jurisdiction, to punish contempt by fine or imprisonment or both, and to levy fines along with imprisonment of a convicted person.

	Miscellaneous Total	-	-	-	-
	Total Municipal Court	\$ 72,997	\$ 71,619	\$ 91,500	\$ 97,500

Goals and Objectives for FY 2011:

1. Transition to an electronic citation system, which will eliminate the need for redundant manual data entry, drastically reduce administrative work, and increase the safety of Garden City residents by quickly identifying dangerous drivers and reducing the time needed for a traffic stop.
2. Continue to maintain an effective court transcription/recording system in order to facilitate more accurate maintenance of information.
3. Increase court sessions from one day per week to two days per week, which will provide a more efficient and economical way to handle the cases and process detainees.

Police Department (3200)

Mission Statement

The mission of the Police Department is to provide quality police services to our community by promoting a safe environment through police and citizen interaction with an emphasis on integrity, fairness, and professionalism.

Department Description

The Garden City Police Department is comprised of three divisions. The Administrative Division is responsible for records, training, Municipal Court, and GCIC operations. The Patrol Division is responsible for all uniform patrol and traffic operations, and the Criminal Investigations Division is responsible for investigating criminal activity, evidence custody, and asset forfeiture. The department operates twenty-four hours per day, seven days per week to provide quality and responsive law enforcement support for the City of Garden City.

Budget Highlights

In the FY 2011 Budget, Police expenditures total \$3,611,371, an increase of 1.2% or \$41,164 over the FY 2010 Amended Budget. The slight increase is attributed to a normal increase in costs.

Goals and Objectives for FY 2011:

1. Provide safe and secure neighborhoods and street environments for our citizens, employees, and visitors to our City twenty-four hours per day, seven days per week
2. Maintain Georgia State Recertification which reduces the cost of insurance and provides a set of standards to gauge our performance
3. Implement preventive measures oriented toward reduction of crimes and accidents and the discovery of hazards or delinquency-causing situations
4. Reduce the number of fatalities, personal injuries, and property damage caused by motor vehicles by collecting and analyzing traffic accident data in order to direct selective enforcement efforts to those areas or conditions that contribute to traffic accidents
5. Maintain a Commercial Vehicle Unit which will reduce the number of motor vehicle accidents involving commercial vehicles through Federal inspections and aggressive enforcement
6. Continue to facilitate open communication between the Police Department and the citizens of Garden City by utilizing Community Oriented Policing (COP) techniques
7. Promote pedestrian safety by ensuring crosswalks are properly marked, educating adults and children on how to properly cross streets, and enforcing Local and State laws concerning vehicle right-of-way and pedestrian right-of-way

Fire Department (3500)

Mission Statement

Through knowledge and skills, Garden City firefighters commit themselves to provide professional services to the community in order to minimize the loss of life and property through prevention, suppression, and mitigation of hazards within the scope of available resources.

Department Description

The Garden City Fire Department is made up of two fire stations. These stations are currently staffed with nine paid firefighters and thirty five volunteers. All of our firefighters are state and nationally certified professional firefighters and are certified by the National Professional Qualifications System. The Department responds to approximately 350 calls for assistance each year with an average response time of less than 5 minutes.

The City Council has made the decision to implement fire protection fees to enable the City to accomplish the following goals: (1) ensure that Garden City residents and business owners receive fire fighting services at the desired service level; (2) continue to fund the five additional, full time fire fighter positions after the conclusion of the SAFER grant in 2014; (3) ensure that there is adequate funding for operational and training expenditures; (4) enable the City to work to maintain the ISO rating of 3; and (5) protect the lives and property of all citizens through emergency response, education and fire prevention. As such, all Fire Department expenditures are being reflected in a Fire Protection Enterprise Fund beginning in FY 2011.

Emergency Management (3920)

Mission Statement

The mission of the Garden City Emergency Management Division is to develop, coordinate, and lead the City's emergency management program, which will enable effective preparation for and efficient response to emergencies and disasters in order to save lives, reduce human suffering, and reduce property loss.

Department Description

The Emergency Management Division developed plans and established contracts to protect the city financially and logistically from manmade and natural disasters. Contracts included debris management, debris monitoring, insurance liability assurance and FEMA certification of Debris and Hurricane Management plans. The department also purchased all supplies needed to feed, bed, and provide for emergency reentry teams.

Budget Highlights

In the FY 2011 Budget, Emergency Management expenditures total \$58,198, an increase of \$46,698 over the FY 2010 Amended Budget. The increase is primarily attributed to the creation of a new trainer position within the Emergency Management division.

Goals and Objectives for FY 2011:

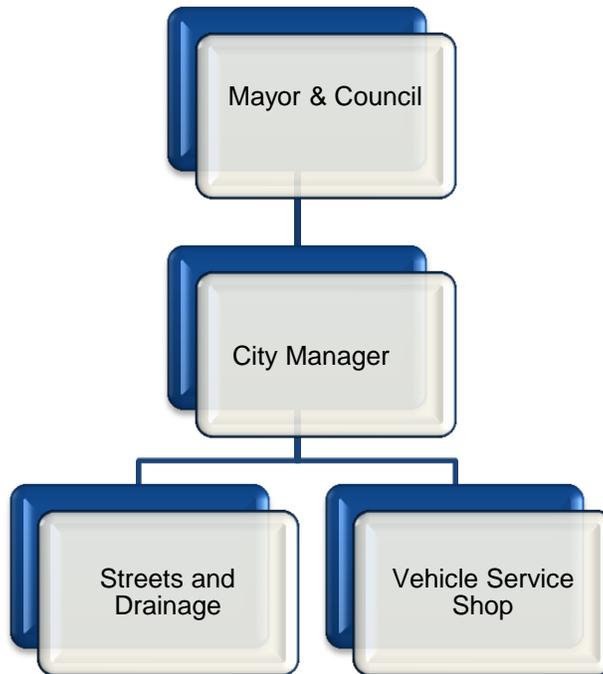

1. Develop plans and procedures to ensure the highest levels of mitigation, preparedness, response, and recovery in emergency situations
2. Maintain a comprehensive, risk-based, multi-hazard emergency management and training program
3. Coordinate federal, state, and local resources for mitigation, preparedness, response, and recovery options in emergency situations

Public Works Function

Public Works provides community services enhancing the quality of life for the citizens of Garden City while protecting the environment by ensuring safe and clean neighborhoods and public places. Incorporated into Public Works are three divisions, each providing unique services including: Streets Maintenance, Vehicle Service Shop, and Stormwater Management.

Public Works Function

Organization Chart

Public Works Priorities & Goals

Short Term Priorities & Goals

Priorities

1. Maintain the City's investment in its garage and maintenance facilities, streets, sidewalks, and storm water drainage systems.
2. Maintain the cleanliness and aesthetics of the City's right-of-way.
3. Ensure development with the City meets current design criteria and standards through the prompt, efficient and accurate review of plans and studies.

Goals:

1. Continually maintain a responsible street and road surface management schedule.
2. Ensure compliance with Federal and State standards, all signs, pavement markings, and other devices used to regulate, warn, or guide traffic on the City's streets, in order to promote safety and efficiency by providing for the orderly movement of all road users.

Long Term Priorities & Goals

Priorities:

1. Anticipate future needs and plan for maintenance and improvements to ensure the City's requirements and expectations for minimum standards and specifications for public infrastructure are met.
2. Promote and retain a competent and well-trained staff dedicated to service the needs of residents and businesses.

Goals:

1. Demonstrate a commitment to excellence in customer services through improved access to information, friendly service and prompt responses.
2. Improve efficient and cost effective use of the City's resources.
3. Continually review and revise as needed, the City's design criteria, specifications, and standard details to reflect current industry standards.

Public Works (4100)

Mission Statement

The mission of the Public Works Department is to provide quality public services and infrastructure for the citizens of Garden City.

Department Description

In order to complete its mission, the Public Works Department maintains city streets, ditches, street signs, ditches, canals, and sidewalks. It is also responsible for dry-trash pickup and cleaning up debris from storms.

Budget Highlights

In the FY 2011 Budget, Public Works expenditures total \$918,011, a decrease of 7.9% or \$78,184 under the FY 2010 Amended Budget. The decrease is primarily attributed to the allocation of stormwater related expenses being accounted for in the Stormwater Enterprise Fund.

Goals and Objectives for FY 2011:

1. To get Capital Drainage Improvement Projects started in order to prepare the City's infrastructure for flooding and allow for the continued growth of the City
2. To respond to all residents and business owners' service requests in a timely manner to ensure a high standard of customer service
3. To operate the Public Works Department in a professional and safe manner and stay within the approved FY2011 Budget by purchasing more efficient equipment and promoting anti-theft practices
4. To maintain the Stormwater Management Program in order to comply with State and Federal laws

Vehicle Service Shop (4900)

Mission Statement

The Vehicle Service Shop's mission is to provide quality service to all of the City's vehicles and equipment.

Department Description

The Vehicle Service Shop is a division of the Public Works Department and is responsible for the maintenance of all City vehicles.

Budget Highlights

In the FY 2011 Budget, Vehicle Service Shop expenditures total \$125,217, a decrease of 10.5% or \$14,728 under the FY 2010 Amended Budget. The decrease is primarily attributed to an effort to reduce supply costs.

Goals and Objectives for FY 2011:

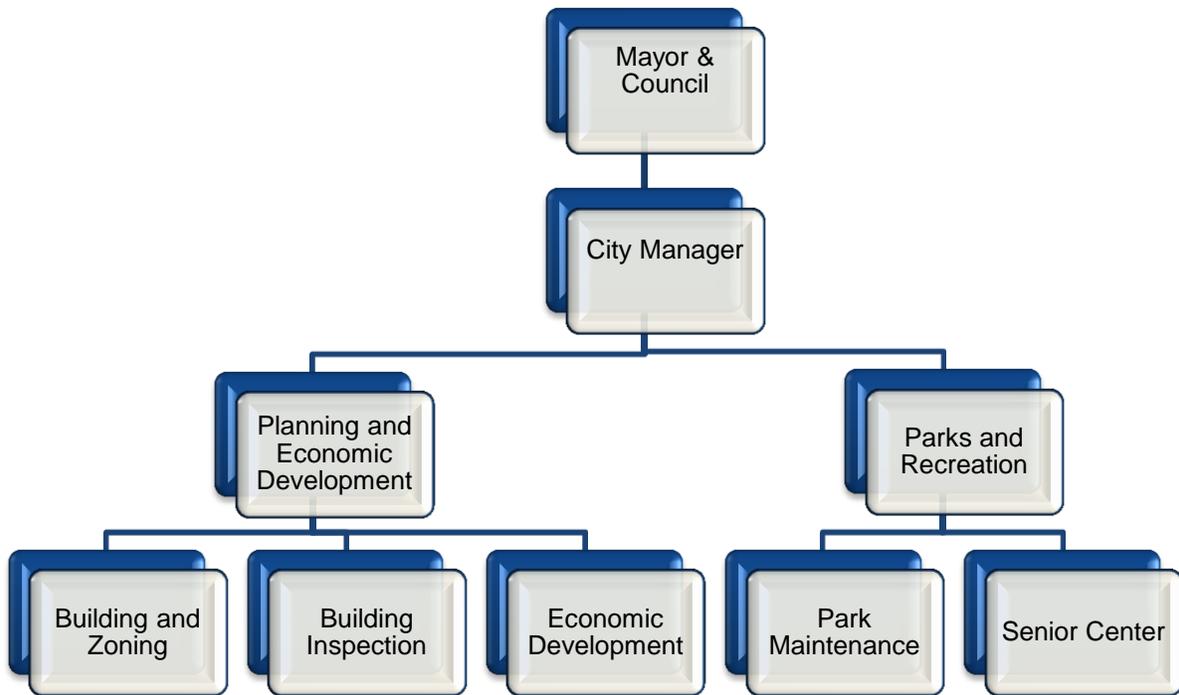

1. To obtain ASE Certification for Vehicle Service Shop employees
2. In order to get the most out of the City's equipment, the Vehicle Service Shop will create and maintain preventive service schedules for all City-owned equipment
3. To operate a cost-effective service center that operates within the FY 2010 Budget
4. To maintain excellent maintenance records for City-owned equipment to monitor service and repair costs for each vehicle and piece of equipment in order to recommend an appropriate time for replacement
5. To minimize inventory levels of tires, parts, etc. by developing and implementing loss control procedures for inventories of parts and equipment

Community Development

The Community Development function encompasses those departments responsible for enforcement of Zoning Ordinance Regulations and Park Maintenance. The Community Development function includes the Planning and Economic Development Department and the Parks and Recreation Department.

Community Development Function

Organization Chart

Community Development

Short Term Priorities & Goals

Priorities:

1. Continue excellence in planning, building inspections, and beautification to ensure safe, desirable, and quality development within Garden City, while working to preserve existing neighborhoods and commercial areas.
2. Ensure fiscal responsibility via accurate forecasting of community necessities and department resources.
3. Provide safe and healthy environment for citizens to enjoy recreational activities at the different parks within the city.

Goals:

1. Use the operating and capital improvement budgets to allocate funds and resources that will provide a high level of service to meet community needs.
2. Continue to provide services to the Senior Center Community that fosters lasting, strong relationships between staff and the citizens.

Long Term Priorities & Goals

Priorities:

1. To maintain all Community Development Departments at an efficient level of service.

Goals:

1. To familiarize staff with new development concepts, building practices, and training opportunities so that staff can implement long-term plans, strategies, and programs to effectively handle the growth of the City of Garden City.
2. Continue to examine areas that lend themselves to department improvement, such as interdepartmental communication, public relation efforts, and timely response to citizen inquiry.
3. Annually examine goals to ensure quality and efficiency of department work programs.

Senior Center (5500)

Mission Statement

The Garden City Senior Center's mission is to promote the successful aging of its citizens.

Department Description

The Senior Center is comprised of two full-time staff members and countless volunteers. The Senior Center provides a variety of programs and services for our seniors designed to enhance the quality of their lives and maintain their independence.

Budget Highlights

In the FY 2011 Budget, Senior Center expenditures total \$145,181, an increase of 4.0% or \$5,586 over the FY 2010 Amended Budget. The increase is primarily attributed to a normal increase in costs.

Senior Center FY 2011 Expenditure Summary (100-5500)

Goals and Objectives for FY 2011:

1. Continue to upgrade the Senior Center Fitness Room by purchasing new equipment
2. Replace the exterior roadside sign for the Senior Center to match the new "Welcome to Garden City" signs
3. Explore more options to provide senior citizens with the transportation needed to have a high quality of life
4. Continue to raise community awareness about our flourishing Senior Center through promotional advertising and media coverage
5. Provide more training opportunities for the Senior Center's staff and volunteers

Parks and Recreation Department (6100)

Mission Statement

The mission of the Parks & Recreation Department is to provide diverse, year-round recreational opportunities through the preservation of open space, park settings, and recreational facilities and programs for the citizens of Garden City while enhancing the overall quality of life in Garden City.

Department Description

The Parks and Recreation Department provides year-round sports opportunities such as Youth Baseball, Girls Fast Pitch Softball, T-Ball, Football, Cheerleading, Soccer and Basketball, which emphasize fun within a structured sports environment. Our non-team sport programs consist of Roller Skating, Summer Day Camp, swimming lessons, public swimming, after school programs, and senior citizen programs.

Budget Highlights

In the FY 2011 Budget, Legislative expenditures total \$634,220, a decrease of 6.0% or \$40,250 under the FY 2010 Amended Budget. The decrease is primarily attributed to a decrease in equipment maintenance costs as well as insurance, other than employee benefits costs. These estimates are based on actual expenditures.

Goals and Objectives for FY 2011:

1. Replace the roadside signs for Sharon Park and the Highway 21 Recreation Center to match the new "Welcome to Garden City" signs
2. Continue to upgrade Bazemore Park as funds become available by replacing fencing and by completing some needed general maintenance
3. Explore options and develop plans for relocation of the basketball gym, pool, and Football/soccer stadium
4. Increase overall participation in Recreation sponsored events
5. Increase participation in Recreation activities among the Hispanic community through a public relations campaign
6. Add 3 new flat-screen computers to the Cooper Center computer room
7. Renovate the pool cool deck using the City's in-house maintenance staff

Planning and Economic Development Department (7400)

Mission Statement

The Department of Planning and Economic Development is committed to providing the City's elected and appointed officials, citizens, businesses, and development community with information and professional expertise used to support decisions, enhance the understanding of the development process, and ensure continued high quality residential, commercial, and industrial development within the City of Garden City.

Department Description

The Department of Planning and Economic Development works to assist community members of all types in the daily and long-term economic growth and physical development of the City of Garden City.

The Department of Planning and Economic Development is responsible for:

- Comprehensive Planning – maintaining and updating the City's long term Comprehensive Plan, and processing long-term projects, policy documents, and environmental documents.
- Current Planning and Development Review – reviewing and processing development applications according to the Comprehensive Plan and Zoning Code.
- Neighborhood Preservation and Code Enforcement – working to maintain quality neighborhoods and inspecting projects after construction to verify and maintain compliance the Zoning Code. The Department of Planning and Economic Development distributes and accepts applications for building permits, subdivision approvals, landscape plans, and inspections. The department also works with the Planning Committee and Commission to review and recommend actions for changes in zoning, plat boundary amendments, and variances.

Budget Highlights

In the FY 2011 Budget, Legislative expenditures total \$384,363, an increase of 11.7% or \$40,236 over the FY 2010 Amended Budget. The increase is primarily attributed to increases in Retirement Contributions, ICMA Match, and Workers' Compensation.

Goals and Objectives for FY 2011:

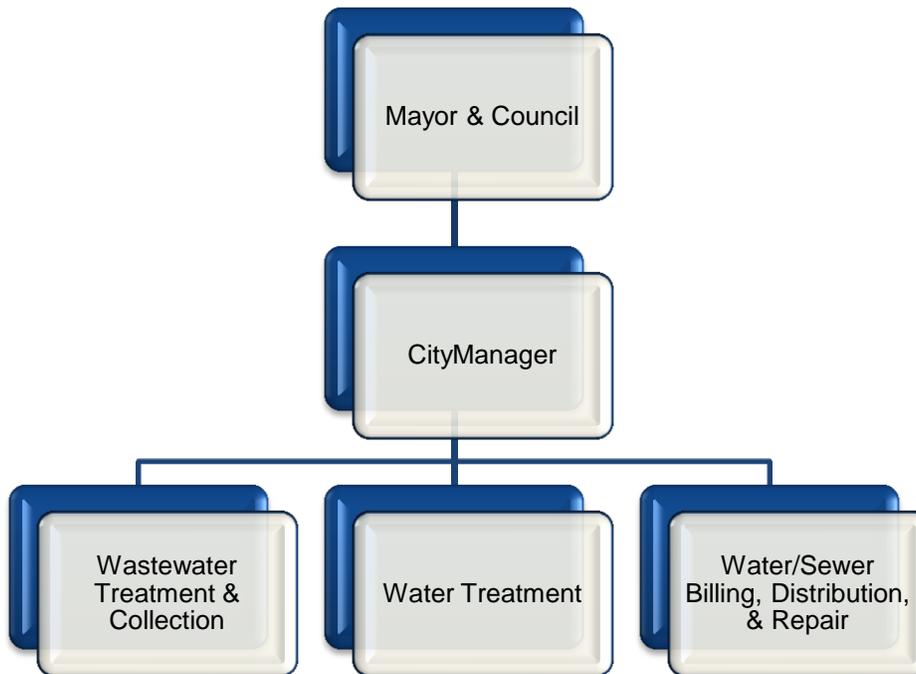

1. Continue a comprehensive zoning code assessment in order to modernize and tailor our zoning code to the specific needs of the City
2. Continue implementation of the Comprehensive Plan
3. The Planning Department will complete a review and make appropriate revisions of the City's entire code.
4. Broaden the effectiveness and diligence of the Code Enforcement Division through increased staff training, better efficiency due to new technology, and tougher enforcement.
5. Complete an analysis and make appropriate revisions to the City's development review process to ensure all code and permitting requirements are met, while providing timely reviews and prompt customer service
6. Continue to provide the City's elected and appointed officials, citizens, businesses, and development community with professional expertise in data assessment used to support decision making, enhance the understanding of the development process, and ensure continuous elevation in residential, commercial, and industrial properties in the City

Water/Wastewater Fund

The Water/Sewer Fund encompasses departments responsible for providing the citizens of the City with safe, palatable drinking water while maintaining eco-friendly operation. The Water/Sewer Fund includes three divisions: Wastewater Treatment & Collection, Water Treatment, and Water/Sewer Billing, Distribution, and Repair.

Wastewater Treatment & Collection (4330)

Mission Statement

The mission of the Wastewater Treatment & Collection Division is to protect the citizens, the interests of Garden City, the environment, and all receiving waterways by eliminating pollutants in waste water and by meeting or exceeding our National Pollutant Discharge Elimination System (NPDES) permit requirements.

Department Description

The Wastewater Treatment Division treats household and light industrial waste biologically, disinfects it to meet or exceed Georgia Environmental Protections and NPDES permit perimeters, and to protect downstream users along with the aquatic environment upon which all life depends.

Budget Highlights

In the FY 2011 Budget, Legislative expenditures total \$916,526, a decrease of 41.8% or \$657,687 under the FY 2010 Amended Budget. The decrease is primarily attributed to the reduction of the contingency within the Water/Sewer Department.

Goals and Objectives for FY 2011:

1. Maintain a 99% reduction in pollutants discharged from the Garden City Wastewater Treatment Plant.
2. Maintain the existing working relationship between the Garden City Wastewater Treatment Facility and other facilities within the county and neighboring communities.
3. Maintain the existing working relationship between the Garden City Wastewater Treatment Facility and the Environmental Protection Agency (EPA) through continued enforcement of EPA standards and requirements.
4. Continue sewer rehabilitation project to enhance waste water services.
5. Continually explore areas where improvements can occur.
6. To insure all waste water employees receive continuing education

Water Treatment (4430)

Mission Statement

The mission of the Water Treatment Division is to provide ample palatable drinking water for the citizens and interests of Garden City, while continuing our water conservation efforts by educating the public and employees of the importance of conserving our water supply.

Department Description

The Water Treatment Division pumps water from four deep wells located throughout the City and treats the water with chlorine as well as fluoride. They also determine the lead, copper, and total trihalomethanes levels as well as run several other tests to produce clean, safe drinking water to our customers.

Budget Highlights

In the FY 2011 Budget, Legislative expenditures total \$312,527, a decrease of .8% or \$2,531 under the FY 2010 Amended Budget.

Goals and Objectives for FY 2011:

1. Implement water system rehabilitation program based on outcome of water modeling project.
2. Ensure reasonable water pressure.
3. Maintain undisturbed water service to the citizens of Garden City.
4. Maintain the existing working relationship between the Garden City Wastewater Treatment Facility and other facilities within the county and neighboring communities.
5. Maintain the existing working relationship between the Garden City Wastewater Treatment Facility and the Environmental Protection Agency through continued enforcement of EPA standards and requirements.
6. To become a designated Water First Community
7. Increase our water conservation efforts by supplying the tools our residents need

Water/Sewer Billing, Distribution & Repair (4440)

Mission Statement

The mission of the Water/Sewer Billing, Distribution, & Repair Division is to provide the citizens of Garden City with accurate billing for water and expeditious repairs for sewer/water lines.

Department Description

The Water/Sewer Billing, Distribution, and Repair Division is responsible for accurately and effectively reading the water meters and billing our customers in a timely manner. It is also responsible for maintaining and repairing our water and sewer lines throughout the City, installing new meters, making water/sewer taps, cleaning manholes and clearing sewer line stoppages, maintain and testing fire hydrants, and doing utility locates throughout the City.

Budget Highlights

In the FY 2011 Budget, Legislative expenditures total \$1,809,647, an increase of 12.4% or \$200,173 over the FY 2010 Amended Budget. The increase is primarily attributed to an increase in Group Insurance and Worker's Compensation costs, depreciation expenses, and the implementation of a transfer fee from Water/Sewer to the General Fund.

Water/Sewer Billing FY 2011 Expense Summary (505-4440)

Fire Protection Fund

Organization Chart

Mission Statement

Through knowledge and skills, Garden City firefighters commit themselves to provide professional services to the community in order to minimize the loss of life and property through prevention, suppression, and mitigation of hazards within the scope of available resources.

Department Description

Over the last three years, Garden City has undertaken a detailed and comprehensive work effort to transition from a volunteer to a professional Fire Department and improve the level of fire protection service for residents and property owners in Garden City. Activities undertaken by the City during this transition include:

- Receipt of a SAFER grant award that allowed the City to hire five (5) additional, full time fire fighter positions;
- Update of Pre-Fire Plans to improve fire protection services for structures in Garden City; and
- Reduction of the City's Insurance Services Office (ISO) rating from a Class 9 to a Class 3 which resulted in an approximate savings of \$80 - \$120 per year on homeowners insurance policies for the average homeowner/residential property.

Budget Highlights

In the FY 2011 Budget, Fire Department expenditures total \$672,533, an increase of 13.8% or \$81,457 over the FY 2010 Amended Budget of \$591,076. The increase is primarily attributed to the additional personnel costs for the five firefighters being charged for a full year.

Goals and Objectives for FY 2011:

1. Complete the construction of Fire Station 3 in the southern corner of Garden City. This will give the City the ability to provide in-house fire protection for all of the citizens of Garden City.
2. Implement a work schedule where the City will have firefighters on duty 24/7, which will better protect the citizens of Garden City.
3. Continue providing the high level of service to the people of Garden City, which promotes an atmosphere of safety through prevention and strives to minimize the loss of life and property.

Glossary

ACCOUNT GROUP - A self-balancing set of accounts which are not a fund or a fiscal entity. General Fixed Assets Account Group and General Long-Term Debt Account Group are such examples.

ACCOUNTING SYSTEM - The total structure of records and procedures that identify, record, classify, summarize and report information on the financial position and results of operations of a governmental unit or any of its funds.

ACCRUAL BASIS ACCOUNTING - A method of accounting in which revenues are recorded when measurable and earned, and expenses are recognized when a good or service is used.

ACCRUED REVENUE - Revenue earned during the current accounting period which will not be collected until a subsequent accounting period.

AGENCY FUND - A fund consisting of resources received and held by the governmental unit as an agent for others.

APPROPRIATION - An authorization by the City Council to incur obligations and to expend public funds for a stated purpose. An appropriation is usually limited in amount and as to the time when it may be expended.

ASSETS – Resources owned or held by a government which have monetary value.

AUDIT - A methodical examination of the utilization of and changes in resources. It concludes in a written report of the findings. A financial audit is a test of the management's financial statements and internal accounting control procedures to determine the extent to which: internal accounting controls are both available and being used; and to determine whether the financial statements fairly present the City's financial condition and results of operations.

AUTHORITY - A government of public agency created to perform a single function of a restricted group of related activities. Usually such units are financed from service charges, fees and tools, but in some instances they also have taxing powers. An authority may be completely independent of other governments or partially dependent upon other governments for its creation, its financing or the exercise of certain powers.

AVAILABLE (UNDESIGNATED) FUND BALANCE - This refers to the funds remaining from the prior year which are available for appropriation and expenditure in the current year.

BALANCED BUDGET – A budget in which planned revenues available equals planned expenditures.

BUDGET – An annual financial plan embodying estimated expenditures for providing services and the proposed means of financing them.

BUDGET ADJUSTMENT - A budget procedure used to adjust expenditures within a departmental budget but with no change to the total budget. Budget Policy requires the City Administrator to make a written request to the City Council for approval to make a budget adjustment.

BUDGET AMENDMENT - A budget amendment alters the total appropriation for a department or fund and requires approval by an ordinance passed by the Garden City Council.

BUDGET CALENDAR – The schedule of key dates that a government follows in preparation and adoption of the budget.

BUDGET CONTROL - The control or management of the approved Budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

BUDGET DOCUMENT - The instrument used by the budget-making authority to present a comprehensive financial program to the appropriating body.

BUDGET MESSAGE - A general discussion of the proposed budget as presented in writing by the City Manager to Mayor and Council. The message contains an explanation of the principal budget items and recommendations regarding the financial policy for the coming year.

BUDGET RESOLUTION – The formal statement approved by the Mayor and Council which shows budgeted revenues and expenditures for the approaching fiscal year.

CAFR (Comprehensive Annual Financial Report) – This official annual report, prepared by the Finance Department, presents the status of the City's finances in a standardized format.

CALEA (Commission on Accreditation for Law Enforcement Agencies) – The primary purpose of the Commission is to improve law enforcement services by creating a national body of standards developed by law enforcement professionals. It recognizes professional achievements by establishing and administering an accreditation process through which a law enforcement agency can demonstrate that it meets those standards.

CAPITAL EXPENDITURES - Capital outlay of one thousand dollars (\$1,000.00) or more that has a useful life in excess of one year.

CAPITAL IMPROVEMENT PROGRAM (CIP) - A multi-year plan developed for capital improvements, which is updated annually. All improvements are to be made in accordance to this plan.

CAPITAL PROJECTS FUND - A fund used to account for financial resources used for the acquisition or construction of major capital equipment or facilities.

CAPITAL OUTLAY - Expenditures that result in the acquisition of/or addition to fixed assets.

CBDG - Community Development Block Grant.

CONSTRUCTION WORK IN PROGRESS - The cost of construction work that has been started but not yet completed.

CONTRACTUAL SERVICE - An agreement to perform a service or task by external organizational units. A group of accounts which cover the above as well as travel and training and other miscellaneous services.

CONTINGENCY FUNDS - Funds set aside to provide for unforeseen expenditures of uncertain amounts.

DEBT LIMIT – The maximum amount of gross or net debt which is legally permitted.

DEBT SERVICE - Expenditures for principal and interest payments on loans, notes, and bonds.

DEPARTMENT - Departments are the major functional sub-divisions and correspond roughly to functional hierarchy used by the City. Each department has been assigned to one of the functions according to the type of activity it performs. For example, the Police Department is part of the Public Safety function.

DEPRECIATION - (1) Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. (2) The portion of the cost of a capital asset which is charged as an expense during a fiscal period.

ENTERPRISE FUND - A self-supporting fund designated to account for activities supported by user charges; examples include: Water, Solid Waste and Sewer Funds.

ENTITLEMENT - The amount of payment to which a state or local government is entitled as determined by the Federal government pursuant to an allocation formula contained in applicable statutes.

EXCISE TAX – A levy on a specific type of transaction at a rate specific to that transaction. Also known as a selective sales tax, these taxes are separate from general sales tax and usually are based on a separate statutory authority. One example is hotel/motel tax.

EXPENDITURE – The payment of cash or the incurring of a liability for the acquisition of goods and services.

EXPENSE - Outflows or other uses of assets or incurring of liabilities during a period from delivering or producing goods, rendering services or carrying out other activities that constitute the entity's ongoing major or central operations; for example, depreciation.

FIDUCIARY FUND - Any fund held by a governmental unit as an agent or trustee.

FISCAL PERIOD - Any period at the end of which a governmental unit determines its financial position and the results of its operations

FISCAL YEAR - A 12-month period of time of an annual budget, at the end of which a governmental unit determined its financial position and the results of its operations

FIXED ASSETS - Assets of a long-term character which are not intended to be sold for profit, but which are to be used in an organization's normal course of business, such as land, buildings, machinery, and equipment.

FRANCHISE TAX - Fees levied on a corporation in return for granting a privilege sanctioning a monopoly or permitting the use of public property, usually subject to regulation set by the governing body.

FRINGE BENEFITS - Employers share of F.I.C.A taxes, health and dental insurance, disability insurance, life insurance, workmen compensation, unemployment taxes, and retirement contributions made on behalf of the City employee.

FULL-TIME POSITION - A position which qualifies for full City benefits, usually required to work 40 hours per week.

FUND - A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities, or balances and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

FUND BALANCE - Fund equity (excess of assets over liabilities) available for appropriation.

FUND EQUITY - The excess of assets over liabilities. A portion of the equity may be reserved or designated; the remainder is Fund Balance

GAAP - Generally Accepted Accounting Principles as determined through common practice or as promulgated by the Governmental Accounting Standards Board, Financial Accounting Standards Board, or various other accounting standards setting bodies.

GEFA – Georgia Environmental Facilities Authority

GENERAL FIXED ASSETS ACCOUNT GROUP - A self-balancing group of accounts set up to account for the general fixed assets of government unit.

GENERAL FUND - A fund used to account for all transactions of a governmental unit that are not accounted for in another fund

GFOA – Government Finance Officers Association

GOAL - A goal is a statement of desired conditions to be maintained or achieved through the efforts of an organization. Actual total achievement may be impossible, but the goal is a standard against which to measure progress toward ideal conditions. A goal is a definition of results toward which the work of the organization is directed.

GOVERNMENTAL FUND - A generic classification adopted by the National Council on Governmental Accounting to refer to all funds other than proprietary and fiduciary funds. General fund, special revenue funds and capital projects funds are all examples of governmental fund types.

GRANT - A contribution by one government unit to another unit. The contribution is usually made to aid in the support of a specified function, activity or for the acquisition or construction of fixed assets.

IMPACT FEE - Fees charged to a new development to offset the cost of infrastructure improvements in the areas of fire, police, parks and transportation. Fees are based upon the developments proportionate share of demand placed upon the infrastructure.

INFRASTRUCTURE - An underlying base or foundation; the basic facilities needed for the functioning of the City.

INTERFUND LOAN - A loan made by one fund to another to be repaid at a later date.

INTERGOVERNMENTAL REVENUE - Revenue for other governments in the form of entitlements, grants, shared revenues or payments in lieu of taxes.

INVESTMENT - Securities held for the production of income in the form of interest and dividends.

LIABILITY - Debts or other legal obligations arising out of transactions in the past that must be liquidated, renewed, or refunded at some future date. This term does not include encumbrances.

LINE-ITEM - A detailed classification of an expense or expenditures classified within each department.

LINE-ITEM BUDGET - A budget featuring things to be purchased. By relating appropriations to commodities, line-item budget represent a “shopping-list” approach to allocation problems. This approach is believed to express official and citizen interest in the values of economy and control. Also known as traditional budgeting.

LONG-TERM DEBT - Debt with a maturity or more than one year after the date of issuance.

LOST - Local Option Sales Tax.

MPC – Metropolitan Planning Commission

MODIFIED ACCRUAL BASIS - Governmental funds use the modified accrual basis of accounting. Revenues are recognized in the period in which they become both available and measurable. Expenditures are recognized at the time a liability is incurred.

NON-OPERATING EXPENSE - Proprietary fund income that is not derived from the basic operations of such enterprises.

OBJECT CODE - Expenditure classification according to the types of items purchased or services obtained; for example, personnel services, materials & supplies, contractual services, and capital.

OBJECTIVE - An objective is a decision about the amount of progress to be made within a specified period of time. It states in measurable and quantitative terms the results to be achieved within a specified time and plans the incremental steps to achieve the goal.

OPERATING BUDGET – Plans of current expenditures and the proposed means of financing them. The annual operating budget (or, in the case of some governments, the biennial operating budget) is the primary means by which most of the financing acquisition, spending, and service delivery activities of a government are controlled. The use of annual operating budgets is usually required by law. Even where not required by law, however, annual operating budgets are essential to sound financial management and should be adopted by every government.

OPERATING COST - Operating costs are proprietary (Enterprise) fund expenses that directly relate to the fund's primary service activities. For example: salaries and wages, expendable supplies, and contractual services.

OPERATING TRANSFER - Legally authorized interfund transfers from a fund receiving revenue to the fund that makes expenditures.

ORDINANCE - A formal legislative enactment by the governing body of a municipality. It is not in conflict with any higher form of law, such as state statute or constitutional provision; it has the full force and effect of law within the boundaries of the municipality to which it applies.

ORGANIZATION CHART - A chart representing the authority, responsibility, and relationships among departmental entities within the City organization.

PART-TIME - Part-time employees work less than 30 hours per week and are not entitled to full-time employee benefits.

PERSONNEL COST - Refers to all costs directly associated with employees, including salaries and fringe benefits.

PROFESSIONAL SERVICES - Expenditures incurred by the City to obtain the services of recognized, licensed professionals such as Doctors, Engineers, Certified Public Accountants, etc....

RESERVE - (1) An account used to earmark a portion of fund balance to indicate that it has been earmarked to a particular purpose; and (2) an account used to earmark a portion of fund equity as legally segregated for a future use.

RESIDUAL EQUITY TRANSFERS - Additions to or deductions from the beginning fund balance of governmental funds.

REVENUE - Additions to fund financial resources other than from interfund transfers and debt issue proceeds.

SALARIES & BENEFITS - The cost of all salaries, wages, and associated fringe benefits required to provide a governmental service.

SRF – State Revolving Loan.

SPLOST - Special Purpose Local Option Sales Tax.

SPECIAL REVENUE FUND - A fund established to account for revenues from specific taxes or other earmarked revenue sources that by law are designated to finance particular functions or activities of government.

TEMPORARY POSITION - A temporary position is filled for a specified period of time, is not permanent in nature, and does not qualify for regular City benefits.

UNRESERVED FUND BALANCE - The amount remaining in fund that is not designated for some future use and which is available for further appropriation or expenditure.

USER CHARGES - The payment of a fee for direct receipt of a public service by the party benefiting from the service.
